This book studies in detail the reform regime of Alexander Dubcek from the assumption of power in the Party by reform-minded communists in January 1968 until

Gustav Husik replaced Dubcek as First Secretary. The reform regime survived only eight months of genuine rule but it persisted for a further eight months after the Soviet invasion in an agonizing struggle for survival. One of the most impressive but little-known developments in the era of reform rule was the attempt by the Czechoslovaks to perpetuate the 'Prague Spring', to salvage something of the programme for reform, and maintain public faith in the face of Soviet occupation. Dr Golan's book (a sequel to *The Czechoslovak Reform Movement*, Cambridge 1971) examines the nature and effects of reform rule in nearly every area of society: the economy, the trade unions and social organizations, national and religious minorities, the cultural world, the Party, government, the legal and security systems, Slovakia, and the field of foreign Policy. This copiously annotated bibliography documents and examines the whole range of commentary on Strindberg's works and activity in many fields besides the plays for which he is internationally best known. These include his prose fiction and poetry, his work as an historian and natural historian, and his relationship to the other arts, most notably

his painting. It is concerned with both lasting works of literary and dramatic criticism, as well as reviews of his books and plays in the theatre, and some more ephemeral material, all of this in several languages. Organised generically and by subject and individual work, the bibliography enables the reader to trace the changing impact of Strindberg and his works in various countries and during different periods. It is thus very much a study in reception as well as a bibliographical record of published material. It traces the developing image of Strindberg and his writing both during his lifetime and in subsequent years, and with frequent cross reference offers a comprehensive overview of a literary and existential project that has rarely been matched for its multifaceted diversity. The bibliography is published in three parts. Volume 1, General Studies (978-0-947623-81-4) and Volume 3, Prose, Poetry, Miscellaneous (978-0-947623-83-8) are also now available. Michael Robinson is Emeritus Professor of Drama and Scandinavian Studies at the University of East Anglia, Norwich. Includes Transactions of the 16th-46th annual meeting of the American Society of Tropical Medicine. This handbook

distills the key lessons on best practice in negotiating loan agreements, and responding to the activities of vulture funds - funds that buy up the debt of sovereign countries at a discount in the hope of making significant profit - for the benefit of all government officials who may have to deal with these issues. Offner clarifies the complex relations of the United States, Spain, and Cuba leading up to the Spanish-American War and contends that the war was not wanted by any of the parties but was nonetheless unavoidable. He shows that a final round of peace negotiations failed in large part because internal political constraints limited diplomatic flexibility. How did millions of middle-class Germans come to support extreme nationalist and anti-democratic groups during the Weimar Republic? This troubling and pointedly argued book addresses this question through a targeted case study of Hof, a small Bavarian town, in the five years after the First World War. During this tumultuous period, a series of devastating crises and violent confrontations discredited the representatives of democratic liberalism and handed the initiative to a reinvigorated radical Right. Crucially, these crises were

understood by Hof's inhabitants as part of a broader "European Civil War" unleashed by the Russian Revolution and Treaty of Versailles. This detailed and disturbing study will be read with profit by students and scholars of modern history who seek new insights into the rise of the Nazis, and into the processes of popular radicalisation that did so much to bring about the destruction of the Weimar Republic. The Unfinished Revolution is the definitive story of New Labour from its genesis to its election defeat 2010 - covering over 25 years and six general elections of strategy, rebuilding and reinvention. In this extraordinary book, Philip Gould, one of the world's leading political strategists and a key adviser to Tony Blair during the period, brilliantly describes how New Labour came to dominate, falter and fall, assessing how successful it was in government, and where it should go from here. Drawing on his years of experience at the heart of New Labour he gives us his unique perspective on how best to understand the electorate, how to communicate policy and how to adapt in a rapidly changing world. This multidisciplinary book introduces readers to original perspectives on crimmigration that foster holistic, contextual, and critical appreciation of the concept in Australia and its individual consequences and broader effects. This collection draws together contributions from nationally and internationally respected legal scholars and social scientists united by common and overlapping interests, who identify, critique, and reimagine crimmigration law and practice in Australia, and thereby advance understanding of this important field of inquiry. Specifically, crimmigration is addressed and analysed from a variety of standpoints, including: criminal law/justice; administrative law/justice; immigration law; international law; sociology of law; legal history feminist theory, settler colonialism, and political sociology. The book aims to: explore the historical antecedents of contemporary crimmigration and continuities with the past in Australia reveal the forces driving crimmigration and explain its

relationship to border securitisation in Australia identify and examine the different facets of crimmigration, comprising: the substantive overlaps between criminal and immigration law; crimmigration processes; investigative techniques, surveillance strategies, and law enforcement agents, institutions and practices uncover the impacts of crimmigration law and practice upon the human rights and interests of non-citizens and their families. analyse crimmigration from assorted critical standpoints; including settler colonialism, race and feminist perspectives By focusing upon these issues, the book provides an interconnected collection of chapters with a cohesive narrative, notwithstanding that contributors approach the themes and specific issues from different theoretical and critical standpoints, and employ a range of research methods. This book presents novel and interesting ways of teaching archaeological concepts and processes to college and university students. Seeking alternatives to the formal lecture format, the various contributions seek better ways of communicating the complexities of human behavior and of engaging students in active learning about the past. This collection of

imaginative exercises designed by 20 master instructors on three continents includes role-playing, games, simulations, activities, and performance, all designed to teach archaeological concepts in interesting and engaging ways. Rick. Ezekiel. Gregory. Negan. Each man holds the fate of their community in their hands... and WAR is on the horizon. This volume collects THE WALKING DEAD #109-114, the prelude to ALL OUT WAR—the epic battle that will change the world of THE WALKING DEAD for years to come. These Election Reports are the observations, conclusions and recommendations of Commonwealth Observer Groups. The Secretary-General constitutes these observer missions at the request of governments and with the agreement of all significant political parties. On 5 July 1962, Algeria became an independent nation, bringing to an end 132 years of French colonial rule. Algeria Revisited provides an opportunity to critically re-examine the colonial period, the iconic war of decolonisation that brought it to an end and the enduring legacies of these years. Given the apparent centrality of violence in this history, this volume asks how we might re-imagine conflict so as to better understand its forms and

functions in both the colonial and postcolonial eras. It considers the constantly shifting balance of power between different groups in Algeria and how these have been used to re-fashion colonial relationships. Turning to the postcolonial period, the book explores the challenges Algerians have faced as they have sought to forge an identity as an independent postcolonial nation and how has this process been represented. The roles played by memory and forgetting are highlighted as part of the ongoing efforts by both Algeria and France to grapple with the complex legacies of their prolonged and tumultuous relationship. This interdisciplinary volume sheds light on these and other issues, offering new insights into the history, politics, society and culture of modern Algeria and its historical relationship with France. While the relationship between sport and religion is deeply rooted in history, it continues to play a profound role in shaping modern-day societies. This edited collection provides an inter-disciplinary exploration of this relationship from a global perspective, making a major contribution to the religious, social scientific and theological study of sport. It discusses the dialectical interplay between sport and Christianity across diverse cultures, extending beyond a Western perspective to include studies from Africa, South America and Asia, as well as Europe, the UK and the US. Containing contributions from leading

experts within the field, it reflects on key topics including race, gender, spirituality, morality, interfaith sport clubs, and the significance of sport in public rituals of celebration and mourning. Its chapters also examine violent sports such as boxing and mixed martial arts, as well as reflecting on the cult of sporting celebrity and the theology of disability sport. Truly international in scope, *Global Perspectives on Sports and Christianity* is fascinating reading for all those interested in the study of sport, sociology and religion.
