24 Satiren Aug 20 2022 Die 24 Satiren gliedern sich in Allgemeine Satiren und Musiksatiren. Die unter Musiksatiren gesammelten Texte beziehen sich auf die Welt der klassischen Musik. Beide Gruppen enthalten Realsatiren. Die Auswahl der Sujets ergibt sich aus der beruflichen Tätigkeit des Autors als Übersetzer, Musikhistoriker und Kritiker. Letztere Tätigkeit erklärt auch die Herangehensweise an bestimmte Themen. Der bei manchem Leser bei der Lektüre des einen oder anderen Textes möglicherweise entstehende Eindruck von mangelnder political correctness (ein Begriff, der in der heutigen Anwendungspraxis selbst schon etwas Satirisches in sich trägt) ist in der nicht-satirischen Realität unzutreffend. Er ist einzig und allein auf die den jeweiligen Themen innewohnende und somit von diesen geradezu eingeforderte Art der satirischen Behandlung zurückzuführen. Jede Ähnlichkeit mit toten oder lebenden Personen ist mehr oder minder zufällig. Die bei vielen Publikationen aus verschiedenen Gründen übliche Danksagung richtet sich im vorliegenden Fall deshalb an all jene, die dankenswerter Weise Anlass zu satirischer Betrachtung gegeben haben.

Race Car Aerodynamics Dec 20 2019 The first book to summarize the secrets of the rapidly developing field of high-speed vehicle design. From F1 to Indy Car, Drag and Sedan racing, this book provides clear explanations for engineers who want to improve their design skills and enthusiasts who simply want to understand how their favorite race cars go fast. Explains how aerodynamics win races, why downforce is more important than streamlining and drag reduction, designing wings and venturis, plus wind tunnel designs and more.

Interstellar Pig Oct 30 2020 When three unusually attractive young adults rent the summer cottage next door, Barney's boring vacation at the beach seemingly takes a turn for the better. However, after the neighbors unwittingly reveal their extraterrestrial identities, the board game they have taught him becomes a real-life battle, and Barney must outsmart the aliens to save Earth from destruction. The fantastical tale contains some of Sleator's most inventive characters.

*Theory of Ground Vehicles Jul 19 2022 An updated edition of the classic reference on the dynamics of road and off-road vehicles As we enter a new millennium, the vehicle industry faces greater challenges than ever before as it strives to meet the increasing demand for safer, environmentally friendlier, more energy efficient, and lower emissions products. Theory of Ground Vehicles, Third Edition gives aspiring and practicing engineers a fundamental understanding of the critical factors affecting the performance, handling, and ride essential to the development and design of ground vehicles that meet these requirements. As in previous editions, this book focuses on applying engineering principles to the analysis of vehicle behavior. A large number of practical examples and problems are included throughout to help readers bridge the gap between theory and practice. Covering a wide range of topics concerning the dynamics of road and off-road vehicles, this Third Edition is filled with up-to-date information, including: * The Magic Formula for characterizing pneumatic tire behavior from test data for vehicle handling simulations * Computer-aided methods for performance and design evaluation of off-road vehicles, based on the author's own research * Updated data on road vehicle transmissions and operating fuel economy * Fundamentals of road vehicle stability control * Optimization of the performance of four-wheel-drive off-road vehicles and experimental substantiation, based on the author's own investigations * A new theory on skid-steering of tracked vehicles, developed by the author.*

The Cutting Edge Sep 09 2021 One of New Zealand's greatest rally drivers and a hill-climbing superstar tells his inspiring story for the very first time. Rod Millen was a hero of New Zealand rallying in the 1970s. Having won several championships he quickly established himself as New Zealand's number one driver. But thereafter Millen went on to do what very few Kiwis have achieved, finding podium success in American motorsport. He won the North American Race and Rally Championship in 1979, 1980 and 1981, then in 1989 Millen achieved perhaps his greatest feat, winning the Pikes Peak International Hill Climb, America's second oldest motor-racing event. Writing his name into history, he went on to win the race more times than any driver. The hill-climb is often referred to as 'Millen's Mountain'. Rod Millen is also a highly successful businessman. As a continuation of his off-road driving interests, he founded Millenworks in California in 1980, specializing in cutting-edge light tactical vehicles, armored and off-road vehicles and subsystems for the US military and theme parks. Millen has recently returned to New Zealand, building a 140-acre,

ocean-front estate at Hahei with a racetrack as a driveway, modeled on his favourite hill-climb corners around the world. He's also established Leadfoot Festival, a unique weekend held every two years at the estate, bringing together a mix of classic cars, vintage motorcycles and motorsport legends, inspired by the famous British Goodwood Festival of Speed. Aside from rallying, Rod is well known for other forms racing such as super touring, drifting and extreme off-road races like the Baja 1000 (often considered the most dangerous race in the world) and Transsiberia rally (which he won in 2007). Rod also won the Race to the Sky hill-climb in New Zealand in 2002 and posted the fastest time at the 2002 Goodwood Festival of Speed in England - and he still has the record up his own front driveway. The Cutting Edge is Rod's story, in his own words, of a life lived pushing the boundaries, of record-breaking off-road driving, working at the forefront of motorsport technology, and of creating the ultimate petrol-head heaven, right in his own backyard.

Whistleblowing for Change May 25 2020 The courageous acts of whistleblowing that inspired the world over the past few years have changed our perception of surveillance and control in today's information society. But what are the wider effects of whistleblowing as an act of dissent on politics, society, and the arts? How does it contribute to new courses of action, digital tools, and contents? This urgent intervention based on the work of Berlin's Disruption Network Lab examines this growing phenomenon, offering interdisciplinary pathways to empower the public by investigating whistleblowing as a developing political practice that has the ability to provoke change from within.
