When Grandma Gatewood Took a Hike Jan 08 2022 It took her two tries, but in 1955, sixty-seven-year-old Emma “Grandma” Gatewood became the first woman to solo hike the entire length of the Appalachian Trail in one thru-hike. Gatewood has become a legend for those who hike the trail, and in her home state of Ohio, where she helped found the Buckeye Trail. In recent years, she has been the subject of a bestselling biography and a documentary film. In *When Grandma Gatewood Took a Hike*, Michelle Houts brings us the first children’s book about her feat, which she accomplished without professional gear or even a tent. Houts chronicles the spirit of a seasoned outdoorswoman and mother of eleven whose grit and determination helped her to hike over two thousand miles. Erica Magnus’s vibrant illustrations capture the wild animals, people from all walks of life, and unexpected challenges that this strong-willed woman encountered on the journey she initially called a “lark.” Children ages 4–10 will delight in this narrative nonfiction work as they accompany Emma Gatewood on the adventure of a lifetime and witness her transformation from grandmother to hiking legend, becoming “Grandma” to all.

Ice Cream Man Sep 23 2020 Obsessions of love, sex, muscles and money: a cocktail for crime and murder. A novice sleuth challenges people in powerful positions, and with mob connections. A bodybuilder agrees to help a woman obsessed with muscles and strength. A husband ventures into sex to defeat his jealousy obsession. Characters and plot to obsess over.

Grandma Gatewood’s Walk Sep 16 2022 Winner of the 2014 National Outdoor Book Awards for History/Biography Emma Gatewood told her family she was going on a walk and left her small Ohio hometown with a change of clothes and less than two hundred dollars. The next anybody heard from her, this genteel, farm-reared, 67-year-old great-grandmother had walked 800 miles along the 2,050-mile Appalachian Trail. And in September 1955, having survived a rattlesnake strike, two hurricanes, and a run-in with gangsters from Harlem, she stood atop Maine’s Mount Katahdin. There she sang the first verse of “America, the Beautiful” and proclaimed, “I said I’ll do it, and I’ve done it.” Grandma Gatewood, as the reporters called her, became the first woman to hike the entire Appalachian Trail alone, as well as the first person—man or woman—to walk it twice and three times. Gatewood became a hiking celebrity and appeared on TV and in the pages of *Sports Illustrated*. The public attention she brought to the little-known footpath was unprecedented. Her vocal criticism of the lousy, difficult stretches led to bolstered maintenance, and very likely saved the trail from extinction. Author Ben Montgomery was given unprecedented access to Gatewood’s own diaries, trail journals, and correspondence, and interviewed surviving family members and those she met along her hike, all to answer the question so many asked: Why did she do it? The story of Grandma Gatewood will inspire readers of all ages by illustrating the full power of human spirit and determination. Even those who know of Gatewood don’t know the full story—a story of triumph from pain, rebellion from brutality, hope from suffering.

Breaking Gravity Aug 15 2022 It was just a hoverboard. Nobody was supposed to die. Dale Adams has worked hard to leave his troubled past behind for a brighter future at Emory University. But when he makes a discovery that will change humanity forever, avoiding the spotlight becomes the least of his concerns. Small experiments have attracted big attention. And not all who notice want Dale to be successful. Or even alive. As Dale’s world collapses around him, his fate intertwines with that of a girl he hardly knows. Their only hope for survival is to disappear into Atlanta’s seedy underbelly, the very place Dale has tried so hard to leave behind. Time is running out, but if they can survive long enough science will be rewritten by the most unlikely of authors. _____ ? ...grabs you by the throat early on and doesn't let go! ? ~ Al Letson, Host of Reveal on NPR

Archivist Feb 09 2022 In Complex 441, the most feared punishment of all is to be made an Archivist, and be sentenced to read the journals of those who came before--before the Loss, before the holes appeared in people’s memories and the cities vanished. But an Archivist doesn’t simply read the journals--he re-lives the events written down inside. His own memories are slowly replaced by those of the Recorder, and the Archivist becomes a different person--if he doesn’t go insane first. When Michael Driftveil, a petty thief, is sentenced to become an Archivist, he is sure there is some mistake. He’s given a harsh 64-year term, reading the journals of an eleven-year-old boy named Johnny, who survived in an underground bunker during the Loss. But the more he reads, the more he learns that the world he thought he knew is not as it seems. The government who sentenced him, who sentenced all the Archivists, is using him. It’s after information. Powerful information. Information that could change everything. Now Michael must escape, must find a way to stop the government’s dangerous plan. And he must do it before his own memories are gone.

Skynoise Oct 13 2019 In 1587, over one hundred colonists, desperate for a better life in the new world, disappear without a trace from a settlement on tiny Roanoke Island, just off the coast of North Carolina. And now, in the present day, tremendous, undulating walls are being heard in the sky all over the world, with no apparent earthly origin. To Helen Weils, bestselling author and respected academic, history is a realm of observable facts, each one carefully weighed and inspected. So when she encounters Chip Sledd, a conspiracy theorist who insists there’s an unimaginable connection between the disappearance of the colonists in 1587 and the strange noises in the sky, she’s quick to dismiss his theories as the irrational ramblings of a lunatic. But when black-suited agents begin pursuing her and Chip, Helen soon realizes that the past is a lot more flexible than she ever thought possible -- and seeking the truth sometimes means accepting the strangest theory of them all.

Deceived Oct 05 2021 The passionate, impulsive Briana Howard and the sly, snarky Jonas Whitmeyer make a perfect mess of a couple. Both are stubborn, smart, and sexy. They’re also human clones with supernatural powers. Jonas had resigned himself to a solitary life on the remote island of Palmyra, home of Sandra Whitmeyer’s clandestine clone-growing lab. With young clones now inexplicably dying, Jonas is torn between feeling responsible for cleaning up his mother’s mistakes—alone—and his desire to be with Bree. A heated tussle on Palmyra leaves Jonas and Briana further apart than ever. Bree storms off to Portland, Oregon, but not before encountering clones of a loved one lost long ago. Jonas tracks down Briana in Portland, where they race to discover the truth about ties between the Howards and the Whitmeyers against a host of obstacles and enemies. Will Jonas and Bree find a way to be together amid an ever-shifting maze of deceit, misdirection and danger unearthed by the darkest of family secrets?

Everygnome’s Guide to Paratechnology May 20 2020 Note: 2nd edition. Professionally edited by David Gatewood, Post-Technological Metamagician Are you a Gnome? Do you want to be one? Do you know what one is? Do you have magical, technical, or any other talent whatsoever? (1) Do you pine after a non-holographic Omnicron, make design sketches of transmorphic actionable multidimensional exo-robotic systems, create novel subroutines for synthetic intelligences, tinker with Dwarf-proof beard mowers, imagine a grand unified theory of life, the universe, and facial hair, or take apart and modify negentropy cannons for fun and amusement? Do you like root vegetables? If you answered yes to one of these questions (2), then you may have what it takes to be a Paratechnologist, a wondrous master of the uniquely Gnomish art of blending magic and technology! Within this concise guide you will find answers to many of the questions you do not have about becoming a Paratechnologist. (3) With enlightening topics including Two Wrongs Often Make a Right, What Doesn't Kill You Can Also Maim, Destroy, and Disfigure, Moving Beyond Clockwork Devices, and How to Avoid Mustache Entanglement, Everygnome's Guide to Paratechnology has more information than you care to know about Paratechnology. (4) If, on the absolutely slim chance you are interested in Gnomish technowizardry (5), then Everygnome's Guide to Paratechnology will be your easily disposed of indispensable guide to embarking upon the often smoldering, explosive, nonsensical, and somewhat erratic path of the Paratechnologist. Notes to self (and others): 1. Real or imagined. 2. Or any other. 3. Who would? 4. Assuming you actually cared about Paratechnology in the first place. 5. Or are interested in making fun of those who are. True Blood Jan 20 2023 This proves to be a unique look into the art of a all together cloudy subject, for most, performance art at it's most dedicated- The beauty in brutal images of Charles Gatewood. David Aaron Clark has supplied very lush and meditative erotic text to supplement the photos, and together they create a sort of poetry beyond the "taboo" nature of the subject matter. It's a great book because it is both beautiful and decadent, and never as "shocking" as it is intensely, profoundly human. Another score for these talented artists. You cannot deny the truth of this book.

Synchronic Apr 11 2022 Synchronic: 13 Tales of Time Travel introduces 13 varied and original takes on the pitfalls and paradoxes of time travel—from some of today's most talented voices. From Michael Bunker's story of a father, a son, and the legendary Santa Anna Gold, to Jason Gurley's heart-wrenching tale of an astronaut forever torn from his young wife and daughter, these stories will keep you on the edge of your seat, and often have you guessing right up until the final word. You'll meet a prison therapist who treats his patients by going back and preventing their crimes; a woman who can't stop reliving her life, no matter how much it hurts; a space marine suffering from a time-altering brain injury; a woman who will betray the man she loves to correct a horrible mistake; a vengeful soul from ages past; and a time cop charged with preserving the timelines of multiple universes. You'll experience a world where time travel is so common, reality itself hangs by a thread; a love story that overcomes the unforgiving barriers of time; a thrilling encounter with a pack of T. rex; a historian's efforts to alter Roman history; and the first manned mission to the Red Planet—or is it? So sit back and enjoy. Just be sure you've got plenty of time.

Uprising (Emerge Trilogy Book 2) Sep 04 2021 A thin line separates life from death, freedom from oppression. One misstep. One wrong choice. When Cricket Black is purposely exposed to Bad Sam, she must choose: fight New Caelum's stranglehold on its citizens' freedom or succumb to the hopelessness of the lethal virus. A dear friend's death at the hands of New Caelum forces Cricket on a path to confront her past, which holds the secret to a permanent cure but also opens old wounds over the loss of her parents. Sending the devastating Samael Strain virus into the outlying communities lands New Caelum on the verge of war with the western settlements. Inside the city, growing tension between the lower classes and New Caelum's elite rulers puts the city on edge and creates a growing divide between Vice-President Westlin Layne and his mother, President Ginger Layne. With death, chaos, and revolution surrounding them, will West and Cricket have to sacrifice their love for each other to bring a peaceful resolution to the wars that rage inside and outside the city?

The Telepath Chronicles Jan 16 2020 Telepathy. Just a far-fetched bit of science fiction “hocus pocus.” But is it? With today's giant leaps forward in technology and biotechnology, with people constantly surrounded by sophisticated yet invisible communication networks, and with a rapidly increasing understanding of the brain's inner workings . . . is it so hard to imagine that we might be able to develop direct mind-to-mind communication? Or might it not be the case that evolution alone, in the right circumstances—if not on this planet, then on others—could give rise to creatures with telepathic abilities? This collection of fourteen stories explores the ramifications of a future where telepathy is real. From that first glorious moment of discovery, to the subsequent jealousies and class divisions, to the dangers of weaponization and the blessings of medical miracles, The Telepath Chronicles promises to take you inside the creative minds of some of today's top science fiction authors.

The Future Chronicles - Special Edition Nov 13 2019 The "Future Chronicles" has grown, from a single collection of robot stories, into a series whose unique take on major science fiction and fantasy themes - A.I., aliens, time travel, dragons, telepaths, zombies, immortality, galactic battles, cyborgs, doomsday - has made it one of the most acclaimed short story anthology series of the digital era. Its companion series - "Alt.Chronicles, The Illustrated Chronicles" and "Chronicle Worlds" - are similarly ground-breaking in their coverage of less mainstream tropes such as alternative history and shared universes. Created by award-winning author Samuel Peralta, and edited by some of the most-respected editors in the genre, each volume brings together work from visionary new voices and from the grandmasters of modern science fiction and fantasy. This "Future Chronicles - Special Edition" volume is a compendium of stories selected from the Chronicles' standalone titles, and includes five new stories, never before published, from some of today's best writers in speculative fiction.

The Robot Chronicles Mar 10 2022 Robots. Androids. Artificial Intelligence. Scientists predict that the "singularity" -- the moment when mankind designs the first greater-than-human intelligence -- is nearly within our grasp. Believe it or not, truly sentient machines may be a reality within as little as 20 years. Will these "post-human" intelligences be our friends? Our servants? Our rivals? What will we learn from them? What will they learn from us? Will we allow them to lead their own lives? Will they have

basic human rights? Will we? Science and society will be forced to address these questions sooner than you think. But science fiction is addressing these questions today. In THE ROBOT CHRONICLES, thirteen of today's top sci-fi writers explore the approaching collision of humanity and technology.
