**On Writing the College Application Essay, 25th Anniversary Edition Aug 24 2020** What does an admissions officer look for in a college application essay? You. It's that simple. There's no formula, no trick, no strategy, says Harry Bauld, a former Ivy League admissions officer. But with acceptance rates at all-time lows, just being yourself in an essay means understanding your readers and the unique form in which you are writing. In this fully revised and updated edition of the classic guide to writing the best essay of your life, Bauld reveals the big clichés (The Trip, The Jock, Miss America, Pet Death) and helps you discover ways to come alive on the page as a real person instead of applicant number 13,791.

many qualified applicants, competition for college admissions is fiercer than ever. Now you can put yourself ahead of the pack by making your application flawless! When applying for college, good grades and high standardized test scores are not always enough to guarantee admission. What sets you apart, argues Michele Hernández, is the way you describe yourself in your application. But how do you present yourself with flair, and highlight all your talents, skills, and passions, in just a few pages? A former assistant director of admissions at Dartmouth College, Dr. Hernández takes you step-by-step through the entire application process, revealing the details that make or break an applicant. From the multitude of short and longer essays to the myriad of charts, lists, and personal data sections, she offers essential advice, useful anecdotes, and vivid examples. Included are:

- A line-by-line look at the common application
- The truth about the essays, with samples of those that made the grade
- The best way to ask for teacher and guidance counselor recommendations
- When to provide colleges with optional essays and peer evaluations
- The ten common myths and misconceptions of the on-campus interview
- The most meaningful academic subjects, work experience, and extracurricular activities to mention
- Early action versus early decision—the trade offs

With this helpful, savvy book, prospective college students—and their parents and counselors—can now vastly improve their chances of

**getting into the college of their choice. “Want to scale the Ivy wall? Michele Hernández gives you the tools to do it. This brisk, no-nonsense book is built on inside dope, and Hernández’s experience allows her to challenge conventional admissions thinking.”**

**Unacceptable Dec 16 2019 FORBES TOP 10 HIGHER EDUCATION BOOKS OF 2020** The riveting true story behind the Varsity Blues college admissions scandal, a cautionary tale of parenting gone wrong, the system that enabled families to veer so far off course, and the mastermind who made it all happen. When federal prosecutors dropped the bombshell of Operation Varsity Blues, it broke open the crimes of exclusive universities and wealthy families all over the country, shattering the myth of American meritocracy. In **Unacceptable**, veteran Wall Street Journal reporters Melissa Korn and Jennifer Levitz dig deep into how otherwise smart, loving parents became caught up in scandal, led through the side door by one man: college whisperer Rick Singer. **Unacceptable** traces how, over decades, the charismatic Singer easily reeled in parents hoping to guarantee top educations for their children, and exploited a system rigged against regular people. Exploring the status obsession that seduced entitled parents in search of an edge, Korn and Levitz unfurl a scheme that entangled more than fifty conspirators, from wealthy CEOs to famous actresses, leading to imprisonments, ruined careers, and terminated enrollments. An eye-opening account of corruption in America's most exclusive institutions, **Unacceptable** tells the story of helicopter parenting, coddled teens, and the man who thought he couldn't be caught. Detailing Singer's steady rise and dramatic

**The College Application Gauntlet Mar 11 2022** This dissertation proceeds as three separate but related papers. Each works to investigate the importance of the many steps required to enroll in college such as

taking the right courses in high school, taking the SAT or ACT, and ultimately completing college applications. The first paper looks descriptively at how students move through the steps to four-year college enrollment. Few studies have examined the steps to college enrollment between college aspiration and college enrollment and how these steps might present a barrier to four-year college enrollment. This study used data from the Education Longitudinal Study: 2002 and employed a multivariate random effects logistic framework to examine the completion of nine steps to enrollment based on student background characteristics and the completion of prior steps. Racial and family income gaps in step completion can be mostly accounted for by differences in academic preparation. Accounting for social and cultural capital reduced, but did not eliminate, remaining gaps. Finally, completion of early steps strongly predicts completion of later steps, though this momentum appeared much stronger for White students than Black or Hispanic ones. The findings suggest college coaching programs should target students early in their high school careers and work to foster college aspirations and provide information about steps to college enrollment. The second paper considers the college enrollment effects of state-required SAT and ACT testing. Since 2001 Colorado, Illinois, and Maine have all enacted policies that require high school juniors to take college entrance exams--the SAT or the ACT. One goal of

these policies was to increase college enrollment based on the belief that requiring students to take these exams would make students more likely to consider college as a viable option. Relying on quasi-experimental methods and synthetic control comparison groups, this article presents the effects of this state-mandated college entrance-exam testing. Based on both state- and individual-level analyses I find evidence that entrance exam policies were associated with increases in overall college enrollment in Illinois and that such policies re-sorted students in all three states between different types of institutions. In particular, Colorado saw an increase in enrollment at private four-year institutions, while Illinois and Maine both saw a decrease in enrollment at public two-year institutions. Increases in enrollment at schools that require entrance exams for admissions support the hypothesis that lack of exam scores can present barriers to college entry. The third paper investigates the effect of using the Common Application, a standardized college application form that makes it easier for students to apply to multiple colleges, on students' enrollment decisions. There is little research on how students' college decisions may be influenced by minor facets of the college admission process such as the relative difficulty of completing college applications. I demonstrate that these theoretically minor concerns are, in fact, quite important to the college enrollment process by studying students' use

**of the Common Application to apply to college. I take advantage of the change in colleges that accept the Common Application between the cohorts of students in the nationally representative NELS and ELS data sets and use an instrumental variables approach to explore the causal effect of the Common Application on students' college enrollment choices and persistence. In theory, the ease of applying to multiple schools through the use of the Common Application has the potential to affect both whether and where students choose to apply to college and, subsequently, the quality of the student-college match. I find evidence that the Common Application does alter students' enrollment choices and has no effect on their likelihood of staying enrolled in college. Thus, despite the enormity of the college decision, small alterations to steps in the college enrollment process can affect high school students' behavior.**

Ask Me Anything Feb 16 2020 "The book is a useful source of Comprehensive Information for anyone who goes through the rigour of applying for admissions in the US." -Dr. Ruchi Seth, Principal, Lotus Valley International School This is the first ever book published by a Recent Applicant! The process of applying for undergraduate education to US universities can be a stressful time, especially if you do not have any idea about the process. You may feel scared about your future, and since everyone advises you different paths, you start to feel confused as well.

**However, this does not have to be your reality. By getting to know the exact process to follow and what all to do, you can easily gain control of your applications. The application process in the United States is holistic, which means that universities there look beyond just your academic performance and get a gist of your personality through various areas in your application where you tell them about yourself in your own voice. These areas include- your personal information, family information, information about the clubs and activities you performed, your academic scores, standardized test scores, your essays, etc. Since each application you send out has limited space available, you need to be able to choose what to write from your life experiences and be able to gauge how to portray yourself in these experiences to the admissions officers at your dream college or university. The chapters in the book would make it clear to you how you should strategize your applications and how to personalize each application to each university you apply, along with which timeline is best suited for your application. I have also listed out the common pitfalls and mistakes which I have seen in my application and as well as in my friends' applications. You should definitely read at least this section to avoid making these costly mistakes yourself. What are you waiting for? Get your copy now and take your applications to the next level!! By simply learning about the application process and getting to**

**know what universities look for, you can start to structure your applications. You need not depend on anyone during the process and can form strategies yourself on how to position yourself towards the admissions officers. You can refer to individual sections as per your need, or read from start to end to get a gist about what application process in the US is about and what to expect. I have included some tips which I found about some universities, which you can use as well. I have included information about key areas as well. Finally, I have included my own essays to prestigious universities which got me waitlisted or accepted. I have discussed strategies on how to write essays yourself and hope that my essays serve as an example for you to help you frame your essays according to your application advantages. Also included at the end are a year-by-year guide and several checklists on what to do, so that your application process becomes much easier. I have included an essay brainstorming checklist and also a checklist on key details you should gather about each university. Since there are many different factors going in the application process, I have included each factor in a separate section which you can refer at your ease. If you are new to the process, you can go through the entire book once, and refer to the sections as per your need. All factors are taken into consideration when universities make decisions, so do not leave any required or recommended area, thinking it is not**
