*Other Women is the vivid account of those women who belonged to a separate part of society: in some ways invisible and socially unacceptable, but at times holding positions of influence and power, living in comfort and even luxury. The stories range from the many mistresses of Charles II – including Barbara Villiers who bore the king at least five children – to the liaison between Edward VII and Alice Keppel, great-grandmother of the Duchess of Cornwall; from the passionate loves of great artists – Edward Burne-Jones, Charles Dickens, Thomas Hardy and H.G. Wells – to the affairs of many other men of arts and letters. This book is not confined to the lovers of famous men, however: the author also charts the history of ‘ordinary’ mistresses, those who did not necessarily acquire wealth or wield influence. There are stories here of power and politics, freedom of speech and the rise from slum to palace. But, above all, they are stories of love. She has been known as the "kept woman," the "fancywoman," and the "other woman." The French acknowledge her existence by remarking, "The chains of marriage are so heavy that it oftentimes takes three people to carry them." She is Jeanne Antoinette de Pompadour, and Simone de Beauvoir, not to mention Marilyn Monroe and Camilla Parker-Bowles. She is a mistress, and she has been – and is – very much apart of our human cultural history. But who is she, really? What is the true nature of the mistress-lover relationship? How do women experience mistressdom? And where does love figure in all of this? Elizabeth Abbott, who made celibacy sexy in her acclaimed *A History of Celibacy*, has the fascinating storehouse of answers in a deliciously rich blend of history, personality and cultural study. In a lively and accessible style, *History of Mistresses* draws intimate portraits of mistresses throughout history, from Chinese concubines to Europe’s royal mistresses and the clandestine consorts of (un)celibate clerics. Mobster molls, trophy dolls and modern mistresses are deconstructed, with often surprising results. Beyond the personalities, some interesting themes emerge: the relationship between mistresses of colour and their married men; the coercion of Jewish women during the Holocaust; and a contemporary look at today’s "power" mistresses. From lust to love, from money to power, Abbott’s *A History of Mistresses* ferrets out the motives and morals of these women, carrying the reader along on a journey that is hugely informative and always entertaining. Tells the history of the French Renaissance through the*

*lives of its most prominent queens and mistresses. As long as there is marriage, there will also be the Mistress. Why then, does our society still behave as if marital infidelity were some unfathomable aberration? Mythology is rich with mistresses-- both divine and mortal--some who have played their roles cunningly and to perfection, and some who have destroyed themselves and all around them. Famous mistresses have not only graced literature but have written it. Courtesans have been a feature of royal courts throughout history. And, whether or not we admit it, or feign naive ignorance, mistresses are women we know, here and now. Victoria Griffin, herself a mistress, brings her steady yet startling focus on the mistresses in history and culture, past and present: from Camille Claudel to Monica Lewinsky, from Madame de Pompadour to Simone de Beauvoir, from George Eliot to Pamela Harriman. It is a subject as rich and diverse as history itself, alive with memorable characters. The Mistress will provoke and delight in equal measure. For fans of Downton Abbey comes an immersive historical epic about a lavish English manor and a dynasty of rich and powerful women who ruled the estate over three centuries of misbehavior, scandal, intrigue, and passion. Five miles from Windsor Castle, home of the royal family, sits the Cliveden estate. Overlooking the Thames, the mansion is flanked by two wings and surrounded by lavish gardens. Throughout its storied history, Cliveden has been a setting for misbehavior, intrigue, and passion—from its salacious, deadly beginnings in the seventeenth century to the 1960s Profumo Affair, the sex scandal that toppled the British government. Now, in this immersive chronicle, the manor's current mistress, Natalie Livingstone, opens the doors to this prominent house and lets the walls do the talking. Built during the reign of Charles II by the Duke of Buckingham, Cliveden attracted notoriety as a luxurious retreat in which the duke could conduct his scandalous affair with the ambitious courtesan Anna Maria, Countess of Shrewsbury. In 1668, Anna Maria's cuckolded husband, the Earl of Shrewsbury, challenged Buckingham to a duel. Buckingham killed Shrewsbury and claimed Anna Maria as his prize, making her the first mistress of Cliveden. Through the centuries, other enigmatic and indomitable women would assume stewardship over the estate, including Elizabeth, Countess of Orkney and illicit lover of William III, who became one of England's wealthiest women; Augusta of*

*Saxe-Gotha, the queen that Britain was promised and then denied; Harriet, Duchess of Sutherland, confidante of Queen Victoria and a glittering society hostess turned political activist; and the American-born Nancy Astor, the first female member of Parliament, who described herself as an “ardent feminist” and welcomed controversy. Though their privileges were extraordinary, in Livingstone’s hands, their struggles and sacrifices are universal. Cliveden weathered renovation and restoration, world conflicts and cold wars, societal shifts and technological advances. Rich in historical and architectural detail, The Mistresses of Cliveden is a tale of sex and power, and of the exceptional women who evaded, exploited, and confronted the expectations of their times. Praise for The Mistresses of Cliveden “Theatrical festivities, political jockeying and court intrigues are deftly described with a verve and attention to domestic comforts that show the author at her best. . . . [Livingstone’s] portraits of strenuous and assertive women who resisted subjection, sometimes deploying their sexual allure to succeed, on other occasions drawing on their husband’s wealth, are astute, spirited, and empathetic.”—The Wall Street Journal “Missing Downton Abbey already? This tome promises ‘three centuries of scandal, power, and intrigue’ and Natalie Livingstone definitely delivers.”—Good Housekeeping “Lively . . . The current chatelaine—the author herself—deserves no small credit for keeping the house’s legend alive. . . . Any of her action-filled chapters would merit a mini-series.”—The New York Times Book Review “Though the personal tales and tidbits are fascinating, and the sensational details of these women’s lives will intrigue Downton Abbey devotees, the real star of the story is Cliveden.”—Booklist “Lovers of modern English history and the scandals that infiltrated upper-crust society will find much to enjoy in this work.”—Library Journal An investigation of the history of illicit sexual relations amongst members of the British royalty, which examines their significant political and social implications throughout the history of the monarchy and attempts to define the relationship between sex and power. Kings throughout medieval and early modern Europe had extraconjugal sexual partners. Only in France, however, did the royal mistress become a quasi-institutionalized political position. This study explores the emergence and development of the position of French royal mistress through detailed portraits of nine of its most*

*significant incumbents: Agnès Sorel, Anne de Pisseleu d'Heilly, Diane de Poitiers, Gabrielle d'Estrées, Françoise Louise de La Baume Le Blanc, Françoise Athénaïs de Rochechouart de Mortemart, Françoise d'Aubigné, Jeanne-Antoinette Poisson, and Jeanne Bécu. Beginning in the fifteenth century, key structures converged to create a space at court for the royal mistress. The first was an idea of gender already in place: that while women were legally inferior to men, they were men's equals in competence. Because of their legal subordinacy, queens were considered to be the safest regents for their husbands, and, subsequently, the royal mistress was the surest counterpoint to the royal favorite. Second, the Renaissance was a period during which people began to experience space as theatrical. This shift to a theatrical world opened up new ways of imagining political guile, which came to be positively associated with the royal mistress. Still, the role had to be activated by an intelligent, charismatic woman associated with a king who sought women as advisors. The fascinating particulars of each case are covered in the chapters of this book. Thoroughly researched and compellingly narrated, this important study explains why the tradition of a politically powerful royal mistress materialized at the French court, but nowhere else in Europe. It will appeal to anyone interested in the history of the French monarchy, women and royalty, and gender studies. The first in an unforgettable historical saga from the New York Times bestselling author of The Alice Network and The Diamond Eye. "So gripping, your hands are glued to the book, and so vivid it burns itself into your mind's eye and stays with you long after you turn the final page."—Diana Gabaldon, #1 New York Times bestselling author First-century Rome: One young woman will hold the fate of an empire in her hands. Thea, a captive from Judaea, is a clever and determined survivor hiding behind a slave's docile mask. Purchased as a toy for the spoiled heiress Lepida Pollia, Thea evades her mistress's spite and hones a secret passion for music. But when Thea wins the love of Rome's newest and most savage gladiator and dares to dream of a better life, the jealous Lepida tears the lovers apart and casts Thea out. Rome offers many ways for the resourceful to survive, and Thea remakes herself as a singer for the Eternal 'City's glittering aristocrats. As she struggles for success and independence, her nightingale voice attracts a dangerous new admirer: the*

*Emperor himself. But the passions of an all-powerful man come with a heavy price, and Thea finds herself fighting for both her soul and her destiny. Many have tried to destroy the Emperor: a vengeful gladiator, an upright senator, a tormented soldier, a Vestal Virgin. But in the end, the life of Rome's most powerful man lies in the hands of one woman: the Emperor's mistress. Why do women become mistresses, and is a mistress merely a wife-in-waiting, or is she the very definition of the emancipated, independent female? In *Mistresses*, Elizabeth Abbott intelligently examines the motives and morals of some of the most infamous and fascinating women in history and literature. Drawing intimate portraits of those who have—whether by chance, coercion, or choice—assumed this complex role, from Chinese concubines and European royal mistresses to mobster molls and trophy girlfriends, *Mistresses* offers a rich blend of history, personal biography, and cultural insight. According to the great diarist, John Evelyn, Charles II was 'addicted to women', and throughout his long reign a great many succumbed to his charms. Clever, urbane and handsome, Charles presided over a hedonistic court, in which licence and licentiousness prevailed. *Mistresses* is the story of the women who shared Charles's bed, each of whom wielded influence on both the politics and cultural life of the country. From the young king-in-exile's first mistress and mother to his first child, Lucy Walter, to the promiscuous and ill-tempered courtier, Barbara Villiers. From Frances Teresa Stuart, 'the prettiest girl in the world' to history's most famous orange-seller, 'pretty, witty' Nell Gwynn and to her fellow-actress, Moll Davis, who bore the last of the king's fifteen illegitimate children. From Louise de K roualle, the French aristocrat – and spy for Louis XIV – to the sexually ambiguous Hortense Mancini. Here, too, is the forlorn and humiliated Queen Catherine, the Portuguese princess who was Charles's childless queen. Drawing on a wide variety of original sources, including material in private archives, Linda Porter paints a vivid picture of these women and of Restoration England, an era that was both glamorous and sordid. When George I arrived in England he found a kingdom in turmoil. Mistrustful of the new monarch from Hanover, his subjects met his coronation with riots. At George's side was his mistress, Melusine von der Schulenberg, whilst his ex-wife languished in prison. Known as the Maypole thanks to her eye-catching figure, Melusine was the king's*

*confidante for decades. She was a mother to his children and a queen without a crown. George II never forgave his father for tearing him from his mother's arms and he was determined to marry for love, not duty. Though his wife, Caroline of Ansbach, proved to be a politically gifted queen, George II turned to another for affection. She was Henrietta Howard, the impoverished Countess of Suffolk, and she was desperate to escape her brutish husband. As the years passed, the royal affair became a powerplay between king and queen and the woman who was mistress to one and servant to another. Melusine and Henrietta's privileged position made them the envy of every courtier. It also made them a target of jealousy, plotting and ambition. In the tumultuous Georgian court, the bedroom and the throne room weren't so far apart. What causes people to give up sex? Abbott's provocative and entertaining exploration of celibacy through the ages debunks traditional notions about celibacy--a practice that reveals much about human sexual desires and drives. Seventeen-year-old Henry VIII was 'a youngling, he cares for nothing but girls and hunting.' Over the years, this didn't change much. Henry was considered a demi-god by his subjects, so each woman he chose was someone who had managed to stand out in a crowd of stunning ladies. Looking good was not enough (indeed, many of Henry's lovers were considered unattractive); she had to have something extra special to keep the king's interest. And Henry's women were every bit as intriguing as the man himself. In this book, Henry's mistresses are rescued from obscurity. The sixteenth century was a time of profound changes in religion and society across Europe - and some of Henry's lovers were at the forefront of influencing these events. Kelly Hart gives an excellent insight into the love life of our most popular king, and the twelve women who knew the man behind the mask. As the mistress of King Edward IV, Jane Lambert finally brings the king true happiness, but when his hedonistic tendencies get in the way of being the strong leader England needs, her life hangs in the balance. Original. A biography of Katherine Swynford For fans of Downton Abbey comes an immersive historical epic about a lavish English manor and a dynasty of rich and powerful women who ruled the estate over three centuries of misbehavior, scandal, intrigue, and passion. Five miles from Windsor Castle, home of the royal family, sits the Cliveden estate. Overlooking the Thames, the mansion is*

*flanked by two wings and surrounded by lavish gardens. *Why is everything that compromises greatness in art coded as 'feminine'? Has the feminist critique of Art History history yet effected real change? With a new preface by Griselda Pollock, this edition of a truly groundbreaking book offers a radical challenge to a women-free Art History. Parker and Pollock's critique of Art History's sexism leads to expanded, inclusive readings of the art of the past. They demonstrate how the changing historical social realities of gender relations and women artists' translation of gendered conditions into their works provide keys to novel understandings of why we might study the art of the past. They go further to show how such knowledge enables us to understand art by contemporary artists who are women and can contribute to the changing self-perception and creative work of artists today. In March 2020 Griselda Pollock was awarded the Holberg Prize in recognition of her outstanding contribution to research and her influence on thinking on gender, ideology, art and visual culture worldwide for over 40 years. Old Mistresses was her first major scholarly publication which has become a classic work of feminist art history. Born into poverty and raised in a brothel, Nell Gwynne sells oranges in the pit at London’s King’s Theater, newly reopened after the plague and the Great Fire devastated the city. Soon, her quick sense of humor and natural charm get her noticed by those who have the means to make her life easier. But the street-smart Nell knows a woman doesn’t get ahead by selling her body. Through talent, charm, intelligence, and sheer determination—as well as a keen understanding of how the world operates—Nell works her way out of the pit and onto the stage to become the leading comedic actress of the day. Her skills and beauty quickly win the attention of all of London—eventually even catching the eye of King Charles II. Their attraction is as real as it is unlikely, and the scrappy orange girl with the pretty face and the quick wit soon finds*

*herself plunged into the confusing and dangerous world of the court, where she learns there are few she can trust—and many whom she cannot turn her back on. From the gritty streets of seventeenth-century London, to the backstage glamour of its theaters, to the glittering court of Charles II, The Perfect Royal Mistress is a love story for the ages, the rags-to-riches tale of a truly remarkable heroine. The little-known story of two spirited sisters who flaunted every social convention of 17th century Europe in their determination to live independently. This pioneering study of the much-mythologized Southern belle offers the first serious look at the lives of white women and their harsh and restricted place in the slave society before the Civil War. Drawing on the diaries, letters, and memoirs of hundreds of planter wives and daughters, Clinton sets before us in vivid detail the daily life of the plantation mistress and her ambiguous intermediary position in the hierarchy between slave and master. "The Plantation Mistress challenges and reinterprets a host of issues related to the Old South. The result is a book that forces us to rethink some of our basic assumptions about two peculiar institutions -- the slave plantation and the nineteenth-century family. It approaches a familiar subject from a new angle, and as a result, permanently alters our understanding of the Old South and women's place in it.*

*When somebody should go to the book stores, search start by shop, shelf by shelf, it is in point of fact problematic. This is why we provide the book compilations in this website. It will totally ease you to look guide A History Of Mistresses Elizabeth Abbott as you such as.*
