Theatre for Young Audiences and Educational Study Guides:

Design, Implementation and Teachers' Perceptions Dec 27 2020 The purpose of this study was to evaluate a Theatre For Young Audiences (TYA) paper and multimedia study guide and to investigate teachers' perceptions of study guides created for TYA. It used current literature surrounding TYA performances, supplemental materials for the elementary classroom, and multimedia in performance and education, to glean critical elements for creating a useful TYA study guide. These elements provided the framework for creating a rubric to evaluate a TYA study guide's potential success in the classroom. The mixed methods study then used the created rubric to evaluate etc . . .'s (Educational Theatre Company) 2005 Hey Diddle Diddle! The Rhymes and Rhythms of Mother Goose study guide. This data was combined with surveys administered to elementary teachers. The study guide rated high on the rubric and teachers' perceptions were generally positive. Overall the analysis yielded information useful for the creation of future guides and research.

Elementary Geography Oct 25 2020 This little book is confined to very simple "reading lessons upon the Form and Motions of the Earth, the Points of the Compass, the Meaning of a Map: Definitions." The shape and motions of the earth are fundamental ideas—however difficult to grasp. Geography should be learned chiefly from maps, and the child should begin the study by learning "the meaning of map," and how to use it. These subjects are well fitted to form an attractive introduction to the study of Geography: some of them should awaken the delightful interest which attaches in a child's mind to that which is wonderful—incomprehensible. The Map lessons should lead to mechanical efforts, equally delightful. It is only when presented to the child for the first time in the form of stale knowledge and foregone conclusions that the facts taught in these lessons appear dry and repulsive to him. An effort is made in the following pages to treat the subject with the sort of sympathetic interest and freshness which attracts children to a new study. A short summary of the chief points in each reading lesson is given in the form of questions and answers. Easy verses, illustrative of the various subjects, are introduced, in order that the children may connect pleasant poetic fancies with the phenomena upon which "Geography" so much depends. It is hoped that these reading lessons may afford intelligent teaching, even in the hands of a young teacher. The first ideas of Geography—the lessons on "Place"—which should make the child observant of local geography, of the features of his own neighbourhood, its heights and hollows and level lands, its streams and ponds—should be conveyed viva voce. At this stage, a class-book cannot take the place of an intelligent teacher. Children should go through the book twice, and should, after the second reading, be able to answer any of the questions from memory. Charlotte M. Mason

[The Courage of Sarah Noble Mar 18 2020](#) In this Newbery Honor book classic, young Sarah learns how to be brave even when the world is strange and new. In 1707, young Sarah Noble and her father traveled through the wilderness to build a new home for their family. "Keep up your courage, Sarah Noble," her mother had said, but Sarah found that it was not always easy to feel brave inside. The dark woods were full of animals and Indians, too, and Sarah was only eight! The true story of Sarah's journey is inspiring. And as she cares for her father and befriends her Indian neighbors, she learns that to be afraid and to be brave is the greatest courage of all. The New York Times Book Review described this book as one "to be long remembered for its beautifully written simplicity and dignity."
