Gaming the System takes an active approach to learning about American government, using novel, exciting, and highly instructive games to help students learn politics by living it. These timeless games are the perfect complement to a core textbook in American government—covering key topics like the Constitution, the Supreme Court, Congress, political participation, campaigns and elections, the federal bureaucracy, the social

contract, social movements, and public opinion—and can be applied to specific courses at other levels, as well. For Instructors: These nine games are designed to be easily inserted into courses, with all but one fitting into one class session and all flexible enough to adapt or scale as needed. Games are designed so that students will be ready to play after minimal preparation and with little prior knowledge; instructors do not need to design or prepare any additional materials. An extensive instructor-only online resource provides everything needed to accompany each game: summary and discussion of the pedagogical foundations

on active learning and games; instructions and advice for managing the game and staging under various logistical circumstances; student handouts and scoresheets, and more. For Students: These games immerse participants in crucial narratives, build content knowledge, and improve critical thinking skills—at the same time providing an entertaining way to learn key lessons about American government. Each chapter contains complete instructions, materials, and discussion questions in a concise and ready-to-use form, in addition to time-saving tools like scorecards and 'cheat sheets.' The games contribute

to course understanding, lifelong learning, and meaningful citizenship. One of the key values in society is honesty. Students will learn how it functions in the United States' government and society, how basic principles and laws rely on it, and how it is essential to everyday interactions. There is widespread agreement that democracy today faces unprecedented challenges. Populism has pushed governments in new and surprising constitutional directions. Analysing the constitutional system of illiberal democracies (from Venezuela to Poland) and illiberal phenomena in 'mature

democracies' that are justified in the name of 'the will of the people', this book explains that this drift to mild despotism is not authoritarianism, but an abuse of constitutionalism. Illiberal governments claim that they are as democratic and constitutional as any other. They also claim that they are more popular and therefore more genuine because their rule is based on conservative, plebeian and 'patriotic' constitutional and rule of law values rather than the values liberals espouse. However, this book shows that these claims are deeply deceptive - an abuse of constitutionalism and the rule of law, not a different conception of these ideas. This

authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis

Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them. This book is a definitive account of Frauds and scams popping up in the Corporate World. A result of over six years of rigorous research, the work presents a deeper and comprehensive perspective on corporate scams and frauds. One would be surprised to

know about companies that are trusted world over have agreed for multi-billion dollar settlements with the Department of Justice, as most of them have either been found guilty of misconduct or have themselves paid the settlement amounts to close further investigations. How will it feel when we get to know that Banks, wherein we keep our hard earned savings, have been found guilty of fraudulent acts in some way or the other? The list is almost a who's who of the Banking community. The book will point out another very delicate and sensitive subject and that is the drugs we take. The book will talk in detail about Pharmaceutical

Companies who have been found guilty of serious misdeeds. Coming to India, where scandals involving Union Carbide, Satyam Computer, allocation of 2G spectrums involving several telecom companies, and allocation of Coal blocks to companies have made headlines. The book will discuss these and other corporate scandals including GMR-led Delhi Airports, LIC Housing, Bharat Earth Movers Ltd., among others. Gaming the System takes an active approach to learning about American government, using novel, exciting, and highly instructive games to help students learn politics by living it. These timeless games are

the perfect complement to a core textbook in American government—covering key topics like the Constitution, the Supreme Court, Congress, political participation, campaigns and elections, the federal bureaucracy, the social contract, social movements, and public opinion—and can be applied to specific courses at other levels, as well. For Instructors: These nine games are designed to be easily inserted into courses, with all but one fitting into one class session and all flexible enough to adapt or scale as needed. Games are designed so that students will be ready to play after minimal preparation and with little prior knowledge;

instructors do not need to design or prepare any additional materials. An extensive instructor-only online resource provides everything needed to accompany each game: summary and discussion of the pedagogical foundations on active learning and games; instructions and advice for managing the game and staging under various logistical circumstances; student handouts and scoresheets, and more. For Students: These games immerse participants in crucial narratives, build content knowledge, and improve critical thinking skills—at the same time providing an entertaining way to learn key lessons about

American government. Each chapter contains complete instructions, materials, and discussion questions in a concise and ready-to-use form, in addition to time-saving tools like scorecards and 'cheat sheets.' The games contribute to course understanding, lifelong learning, and meaningful citizenship. A public policy expert reveals how decades of deregulation and increasing inequality have fostered a culture of cheating across America. There have always been people who cut corners, but in *The Cheating Culture*, David Callahan demonstrates how cheating on every level—from the highly publicized corporate scandals

to Little League fraud—has risen dramatically in recent decades. He then asks the simple yet provocative questions: Why all the cheating? Why now? Callahan pins the blame on today's dog-eat-dog economic climate. An unfettered market and unprecedented economic inequality have corroded our values and threaten the level playing field so central to American democracy itself. Through revealing interviews and extensive data analysis, Callahan takes readers on a revealing tour of cheating in America and offers a powerful argument for why it matters. While the debate continues about impeaching President

Trump, whether we're in a full blown Constitutional crisis, and which Trump administration officials should be prosecuted for illegal actions, Cheating Justice serves as useful background for how we got here by examining how the Bush-Cheney administration broke the law—and how the people can bring them to justice. Despite the many misdeeds of and abuses of criminal law by the Bush administration, there has been no accountability. Former U.S. representative Elizabeth Holtzman pairs with lawyer and journalist Cynthia L. Cooper to explain why we can't "just move on." They lay bare how the Bush-Cheney

administration broke a multitude of laws and betrayed American values, and exactly why and precisely how we, the people, must bring them to justice for their crimes, their cover-ups, and their deceit. Backed by strong evidence gleaned from "astounding"* research, Holtzman and Cooper argue that the Bush administration not only violated various U.S. laws but also changed many laws to escape prosecution for their crimes later. The authors demonstrate how a failure to hold George W. Bush and Dick Cheney accountable would set a dangerous precedent for the future leadership of America. Bush and Cheney deceived

Congress and the people to drive us into a war in Iraq; they claimed the right to wiretap illegally and to eavesdrop on citizens; and they authorized torture, upending laws and breaching international treaty obligations. Yet, both Bush and Cheney are boldly unabashed about their offenses. In his memoir, President Bush makes no apologies for his decision to start a war in Iraq, though no weapons of mass destruction, the ostensible reason for the war, were found there. And once out of office, Bush proudly said, "Damn right," about his approval of waterboarding, a clear violation of the Geneva Conventions and U.S. law. Recent revelations about the

extent and depth of their crimes, catalogued in detail here, make the need for accountability imperative. As a member of Congress and part of the committee that investigated and held hearings on the conduct of President Richard Nixon in the Watergate scandal, Elizabeth Holtzman condemns Bush's adoption of Nixon's claim that he acted in the interest of national security. Using Watergate-era reforms as a model, Holtzman details the steps necessary to undo the damage that the Bush-Cheney administration inflicted and explains how we can establish new protections to block future presidents from similarly abusing the law.

Cheating Justice is not only a call to empower the American people, and a firm insistence that the nation's leaders are not above the law; it is also a blueprint by one of America's top legal minds for bringing Bush to justice and protecting the future of our democracy. *Publishers Weekly Examines how schools at every level fail girls and offers a solution to what must be done to serve children better. Who was the 16th president? What is the capital of Maine? When was World War II again? There's no need for cluttered notes or sticky notes in your textbook margins. Make US history easy again with The Ultimate US History Cheat Sheets. These

simple "cheat sheets" were created with grades 4-8 in mind. Whenever you need to jog your memory, simply look it up in these no-fluff reference guides. These cheat sheets aren't meant for teaching the material, but are designed for when you need a quick reminder on how to find out what started the American Civil War or who Franklin D. Roosevelt's vice presidents were. This study guide is useful to: Decide which exams to take. Read detailed descriptions of the exams that will help you choose your study resources. Familiarize yourself with the types of questions on the exams. Learn how the College-Level Examination Program

(CLEP®) can help advance your path to a college degree. What Is CLEP? CLEP, the College-Level Examination Program, gives students the opportunity to receive college credit by earning qualifying scores on any one or more of 34 exams. Nearly 3,000 colleges and universities in the United States will grant credit for CLEP exams. More than seven million students have taken CLEP exams since 1967. Now it's your turn to move ahead in your education and career with CLEP! Book jacket. Cheating is a problem that affects all teachers. This no-nonsense approach to cheating is essential reading for all teachers, principals, and policy

makers. Practical classroom examples show how cheating occurs, how it can be detected, and how it can be deterred. Gregory Cizek, esteemed scholar and former classroom teacher, combines key findings from the most current research with practical classroom examples. Important features include: -glossary of key terms - tips for detecting and preventing cheating and plagiarism -strategies for responding to cheating with students, parents, and other teachers -sample school cheating policies and honour codes -common resources that students use to cheat - resources, including emerging high-tech methods, that can

detect and deter cheating

Select Letters on the Trade and
Government of America: And
the Principles of Law and
Polity, Applied to the American
Colonies HE letters which are
now submitted to the public,
were written between the years
1763 and 1768 by Governor
Bernard, who was at that time
governor of Massachusetts Bay,
and had a principal part in the
proceedings which gave
occasion for them. A little
before that time an act of
parliament was passed for
raising money in America by a
stamp duty, and bringing it into

the Exchequer of England;
without due confidence; ration
being had of. The practicability
of such (cheats, or of the
Propriety of it if it was
practicable. At this time
America was just recovering
herself from a war, in which
the burdened a principal and
burdensome part and therefore
was a very unfit subject for a
previous Taxation. But what
should have prevented a
Taxation at that time was, that
her governing powers were not
fitted or able to carry into
execution that, or any
ordinance of Parliament that,
was like to be disputed. There
was no fixed idea of the
Relation between Great Britain
and America; not one of the

Governments there had, what:
not one of them could have
been without, a Parliament [1
11 3, menfary Constitution. And
therefore it is not to be won
dered at, that when they were
called upon to pay money to
the order of Parliament, they
should answer, We know not
what is the Relation between,
you and us. About the

Get up to speed on the U.S. political system Confused by caucuses, primaries, and pollsters? Puzzled by the various parties and special interest groups? Politics For Dummies has everything you need to understand local, state, and national politics; how to communicate with your elected

officials; and what your representatives can do for you. You'll find out all about lobbying groups, sub-committees, the government branches, and how elections work. Also included is new information on how to use online tools and social media to find out what legislation is on the floor, what issues are before the Supreme Court, and when congress and the Supreme Court are in session. Understand the United States political system Learn more about the three branches of U.S. government Discover the differences in federal, state, and local operations Get need-to-know information for involvement This book cuts

through the political jargon and provides clear, up-to-date details about everything from legislation to polls to presidential elections in the United States—and explains how you can become a political player yourself. Volume contains: 241 NY 55 (People v. Werblow) 240 NY 501 (Zimmerman v. Roessler & Hasslacker Chemical Co.) 240 NY 491 (E.E. Smith Contracting Co. v. City of N.Y.) To understand contemporary American politics and government students need to see how political ideas, institutions and forces have developed over time. The fourth edition of American Government dwells on the

seminal role played by political memory and path dependency in shaping contemporary institutions, political forces and public opinion as well as the critical choices that have caused them to shift course. It provides a comprehensive depiction of current demographic, political, attitudinal and governmental facts, trends and conditions. Each chapter begins with a detailed contemporary portrait of its subject. NEW YORK TIMES BESTSELLER "Reilly pokes more holes in Trump's claims than there are sand traps on all of his courses combined. It is by turns amusing and alarming." -- The New Yorker "Golf is the spine

of this shocking, wildly humorous book, but humanity is its flesh and spirit." -- Chicago Sun-Times "Every one of Trump's most disgusting qualities surfaces in golf." -- The Ringer An outrageous indictment of Donald Trump's appalling behavior when it comes to golf -- on and off the green -- and what it reveals about his character. Donald Trump loves golf. He loves to play it, buy it, build it, and operate it. He owns 14 courses around the world and runs another five, all of which he insists are the best on the planet. He also claims he's a 3 handicap, almost never loses, and has won an astonishing 18 club championships. How much

of all that is true? Almost none of it, acclaimed sportswriter Rick Reilly reveals in this unsparing look at Trump in the world of golf. Based on Reilly's own experiences with Trump as well as interviews with over 100 golf pros, amateurs, developers, and caddies, Commander in Cheat is a startling and at times hilarious indictment of Trump and his golf game. You'll learn how Trump cheats (sometimes with the help of his caddies and Secret Service agents), lies about his scores (the "Trump Bump"), tells whoppers about the rank of his courses and their worth (declaring that every one of them is worth \$50 million), and tramples the

etiquette of the game (driving on greens doesn't help). Trump doesn't brag so much, though, about the golf contractors he stiffes, the course neighbors he intimidates, or the way his golf decisions wind up infecting his political ones. For Trump, it's always about winning. To do it, he uses the tricks he picked up from the hustlers at the public course where he learned the game as a college kid, and then polished as one of the most bombastic businessmen of our time. As Reilly writes, "Golf is like bicycle shorts. It reveals a lot about a man." Commander in Cheat "paints a side-splitting portrait of a congenital cheater" (Esquire), revealing all kinds of unsightly truths

Trump has been hiding. In this introductory American politics text, Cal Jillson provides not only a sense of how politics works today but also how institutions, systems, political participation, and policies have developed over time to produce today's political environment in the United States. This historical context provides the necessary backdrop for students to understand why things work the way they do now. Going one step further, the book identifies critical reforms and how American democracy might work better. In a streamlined presentation, Jillson delivers a concise and engaging narrative to help students understand the

complexities and importance of American politics. Key features: The 4th edition is thoroughly updated, including full analysis of the 2006 mid-term elections and shift in partisan control of Congress. Chapter-opening Focus Questions; illustrative figures and charts; "Let's Compare" and "Pro & Con" boxes; key terms; time lines; and end-of-chapter suggested readings and web resources. Companion website for students (<http://americangovernment.routledge.com>) features chapter summaries, focus questions, practice quizzes, glossary flashcards, participation activities, and links. Instructor's resources on the

web and on CD-ROM, including Testbank, Instructor's Manual, figures and tables from the text, and lecture outlines. "Equal Pay for Equal Work" is one of the foundations of modern American work life. But workers without children do not reap the same rewards as do their colleagues who are parents. Instead, as veteran journalist Elinor Burkett reveals, the past decade has seen the most massive redistribution of wealth since the War on Poverty - this time not from rich to poor but from nonparents, no matter how modest their means, to parents, no matter how affluent. Parents today want their child and their Lexus, too - which accounts for

the new culture of parental privilege that Burkett aptly calls "the baby boon." "Burkett reports from the front lines of the work-place: from the hallowed newsroom of The New York Times to the floor of a textile factory in North Carolina to a hospital in Boston. She exposes a simmering backlash against perks for parents, from workers who are losing their tempers and fighting for their rights. She spells out how tax breaks for families with six-figure incomes are not available to childless people earning half as much. And she tells the dramatic story of how pro-family conservatives and feminists became strange

bedfellows on the issue of pro-family rights, leading to an increase in workplace and government entitlement for parents - at the same time as the childless poor lost their public benefits." "Armed with hard data and grassroots reporting, Elinor Burkett points the way to a more equitable future. With an inside look at what some companies are already doing to redress the grievances of childless workers and a hard assessment of what the truly needy - children and adults - require in order to survive, Burkett fires the first shot in the battle to come."-- BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights

Reserved Pulitzer Prize-winning reporter and dean of Trumpologists David Cay Johnston reveals years of eye-popping financial misdeeds by Donald Trump and his family. While the world watched Donald Trump's presidency in horror or delight, few noticed that his lifelong grifting quietly continued. Less than forty minutes after taking the oath of office, Trump began turning the White House into a money machine for himself, his family, and his courtiers. More than \$1.7 billion flowed into Donald Trump's bank accounts during his four years as president. Foreign governments rented out whole floors of his hotel five blocks from the White

House while lobbyists conducted business in the hotel's restaurants. Payday lenders and other trade groups moved their annual conventions to Trump golf resorts. And individual favor seekers joined his private Mar-a-Lago club with its \$200,000 admission fee in hopes of getting a few minutes with the President. Despite earning more than \$1 million every day he was in office, Trump left the White House as he arrived—hard up for cash. More than \$400 million in debt comes due by 2024, and Trump still lacks the resources to pay it back. “Few people are as well positioned to write an exposé of the former president

as Johnston” (The Washington Post), and *The Big Cheat* offers a guided tour of how money flowed in and out of Trump's hundreds of enterprises, showing in simple terms how a corrupt president used our government for his benefit, even putting national security at risk. Johnston details the four most recent years of the corruption that has defined the Trump family since 1885 and reveals the costs of Trump's extravagant lifestyle for American taxpayers. Former FBI agent Gregor Demarkian, fleeing from his own wedding preparations, is hired to review a case—one that he finds has little evidence and twisted by an out-of-control media—in

what may be the most compelling case of his entire career. "Cheating is deeply embedded in everyday life. Costs attributable to its most common forms total close to a trillion dollars annually. This book offers the only recent comprehensive account of cheating in everyday life and the strategies necessary to address it across a wide range of contexts: sports, organizations, taxes, academia, copyright infringement, marriage, and insurance and mortgages"-- The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress

is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) This text is a rigorous introduction to international economics for upper-level undergraduates and above. The first half examines the causes and effects of international trade, how tariffs and other trade policies affect the gains from trade, and the ways in which governments try collectively to regulate those policies. The

second half deals with monetary matters - the behavior of exchange rates, how trade and capital flows affect the functioning of monetary and fiscal policies, the causes and management of currency crises, and the new European Monetary Union (EMU). This fourth edition assesses the outcome of the Uruguay Round of trade negotiations, the work of the new World Trade Organization (WTO), and the challenges posed by regional trade blocs. It surveys recent theoretical work on currency crisis, examines recent crises in emerging-market countries and the role of the International Monetary Fund (IMF), and

appraises innovations in exchange-rate arrangements, including the EMU and the use of currency boards by emerging-market countries. A problem set follows each chapter. Become an expert on the Revolutionary War American Revolution For Dummies capitalizes on the recent resurgence of interest in the Revolutionary War period—one of the most important in the history of the United States. From the founding fathers to the Declaration of Independence, and everything that encapsulates this extraordinary period in American history, American Revolution For Dummies is your one-stop

guide to the birth of the United States of America. Understanding the critical issues of this era is essential to the study of subsequent periods in American history ... and this book makes it more accessible than ever before. Covers events leading up to the war, including the Sugar Act, Stamp Act, and the Boston Tea Party Provides information on The Declaration of Independence Offers insight on major battles, including the Battles of Lexington and Concord, Bunker Hill, and Yorktown Reviews key figures, including George Washington, Charles Cornwallis, the Marquis de Lafayette, and Alexander Hamilton If you want

or need to become more knowledgeable about the American War of Independence and the people and period surrounding it, this book gives you the information necessary to become an expert on the essential details of the revolutionary period. Now updated with a new prologue! Since the mid-1970s, there has been a dramatic shift in America's socioeconomic system, one that has gone virtually unnoticed by the general public. Tax policies and their enforcement have become a disaster, and thanks to discreet lobbying by a segment of the top 1 percent, Washington is reluctant or unable to fix them. The

corporate income tax, the estate tax, and the gift tax have been largely ignored by the media. But the cumulative results are remarkable: today someone who earns a yearly salary of \$60,000 pays a larger percentage of his income in taxes than the four hundred richest Americans. Pulitzer Prize-winning investigative reporter David Cay Johnston exposes exactly how the middle class is being squeezed to create a widening wealth gap that threatens the stability of the country. By relating the compelling tales of real people across all areas of society, he reveals the truth behind: • "Middle class" tax cuts and exactly whom they benefit. •

How workers are being cheated out of their retirement plans while disgraced CEOs walk away with millions. • How some corporations avoid paying any federal income tax. • How a law meant to prevent cheating by the top 2 percent of Americans no longer affects most of them, but has morphed into a stealth tax on single mothers making just \$28,000. • Why the working poor are seven times more likely to be audited by the IRS than everyone else. • How the IRS became so weak that even when it was handed complete banking records detailing massive cheating by 1,600 people, it prosecuted only 4 percent of them. Johnston has

been breaking pieces of this story on the front page of The New York Times for seven years. With *Perfectly Legal*, he puts the whole shocking narrative together in a way that will stir up media attention and make readers angry about the state of our country. Become an expert on the Revolutionary War American Revolution For Dummies capitalizes on the recent resurgence of interest in the Revolutionary War period—one of the most important in the history of the United States. From the founding fathers to the Declaration of Independence, and everything that encapsulates this extraordinary period in American history,

American Revolution For Dummies is your one-stop guide to the birth of the United States of America.

Understanding the critical issues of this era is essential to the study of subsequent periods in American history ... and this book makes it more accessible than ever before.

Covers events leading up to the war, including the Sugar Act, Stamp Act, and the Boston Tea Party Provides information on The Declaration of Independence Offers insight on major battles, including the Battles of Lexington and Concord, Bunker Hill, and Yorktown Reviews key figures, including George Washington, Charles Cornwallis, the

Marquis de Lafayette, and Alexander Hamilton If you want or need to become more knowledgeable about the American War of Independence and the people and period surrounding it, this book gives you the information necessary to become an expert on the essential details of the revolutionary period. Charles Lewis, Bill Allison, and a team of researchers from the Center for Public Integrity -- an organization that the National Journal called "a watchdog in the corridors of power" -- investigated how millions of high-income adults and some major corporations cheat the government of billions through tax avoidance (legal), tax

evasion (illegal), or tax "avoidance" (catch me if you can). Now Lewis and his team provide explosive revelations about who cheats and how they do it, from offshore banks to foreign "tax havens." Case studies of the most brazen dodgers will have taxpayers seeing red in this eye-opening report that puts the IRS on notice. Sure to enlighten and outrage, The Cheating of America is a must -- read for every citizen. AMERICAN GOVERNMENT: INSTITUTIONS AND POLICIES, 15th Edition is a clear and approachable text for students trying to successfully understand American government. It sets the

standard for examining current issues in American politics focusing on the importance of American governmental institutions, the historical development of governmental procedures and policies, and who governs in the United States and to what ends. It includes concise learning objectives, highlighted key concepts, and opportunities for practical application of contemporary debates on policy dynamics. These features allow students to identify important issues in American politics, maximize comprehension, and engage with the material in a meaningful way. Important Notice: Media content

referenced within the product description or the product text may not be available in the ebook version. This vibrant, illustrated guide to the ins and outs of United States politics provides a clearer understanding of the current events and regular processes that shape this nation and the world. Decipher the American political system with this clear, easy-to-understand guide to the basics of the United States political system, from the founding of the thirteen colonies, to the foundations of the constitution, to how elections work. You'll also find information about the history and context of current issues, like how Supreme Court

justices are appointed; the electoral college and the popular vote; and how to get involved in the political process. Perfect for anyone looking for information on basic political processes, The Infographic Guide to American Government includes graphics that help simplify a range of topics from the Revolutionary War to all about a free press. Here biologist Lee Dugatkin outlines four paths to cooperation shared by humans and other animals: family dynamics, reciprocal transactions (or "tit for tat"), so-called selfish teamwork, and group altruism. He draws on a wealth of examples—from babysitting among mongooses

and food sharing among vampire bats to cooperation in Hutterite communities and on kibbutzim—o show not only that cooperation exists throughout the animal kingdom, but how an understanding of the natural history of altruism might foster our own best instincts toward our fellow humans. In the American Government Student Text, 3rd ed., your student will learn about essential features of American government, from its historical and scriptural foundations to detailed analysis of its inner workings. The course provides an overview of changes and developments in our government with an emphasis on the U.S.

Constitution and current events. It is organized for use in either a one- or two-semester course. The third edition of American Government contains a new chapter on state and local governments as well as Christian worldview boxes that are designed to help students think scripturally and critically about governmental issues. - Publisher.
