This book of self-resistance exercises and the Transformetrics Training System require less time than it takes to drive to the gym and change into exercise clothes, do not require a gym or expensive equipment, and can be done anything in the comfort and privacy of home. The ultimate compilation of nutritional information, training tips, client success stories and workout programming that we have used on our clients over the past 7 years, to achieve the amazing results that we have. When we train clients, we work with them in the following three ways:

1. Physically - we help them develop their strength, flexibility, coordination and endurance. We help them increase their confidence in the gym and increase their fitness levels to a place they never thought was possible.
2. Nutritionally - we expand our clients' knowledge of nutrition and healthy eating. We recognise that all bodies are unique, and that everyone's metabolic makeup is different. There is no one size fits all approach. Our clients receive the best dietary support possible as they work towards their goals. Most importantly we show our clients how to develop a healthy relationship with food that is sustainable in the long-term - no quick fixes over here!
3. Mentally - mindset is everything. We help our clients to focus their thoughts, heighten their self-awareness and increase their self-confidence so that they realise anything is possible and that nothing can hold them back!

Marathons and—more than ever—half-marathons are the ultimate achievement for runners and have experienced an unprecedented boom in the last several years. New hunger for reliable information on marathon and half-marathon training, as well as new technologies that have revolutionized ordinary people's ability to train intelligently, means the time is right for a new edition of longtime Runner's World contributor Hal Higdon's classic guide to taking the guesswork out of preparing for a marathon, whether it's a reader's first or fiftieth. At the core of the book is Higdon's clear and essential information on training, injury prevention, and nutrition. With more than 25 percent new material, this fourth edition of a running classic is a must-own for both longtime runners and those new to the sport. A comprehensive plan for matching diet and fitness regimens to body types, based on the proven system of somatotypes According to fitness guru Phil Catudal, 70 percent of people exercise the wrong way. To achieve lasting fitness and health, Catudal explains, you should work with your natural-born body type and do the optimal combination of cardio, strength training, and flexibility exercises and consume the right proportion of macronutrients for your physique. While fitness trends and fad diets will come and go, your body type (somatotype) is the one constant that's never going to change. Just Your Type helps anyone create an individualized workout that's tailored to their body shape and composition. Working harder isn't always the answer, but working smarter is.
