Developed by a group of researchers, administrators, and practitioners, this manual provides a practical guide for improving the coordination of education, health, and human services for at-risk children and families. Divided into three main sections, the guide leads readers through a five-stage process of group collaboration. The milestones in and obstacles to the process are portrayed through vignettes and case studies that describe the personal experiences of the group members. In the first part, "Outlining a Vision for Change," it is argued that an interlocking set of integrated education and human services is an essential part of a community in which

learning occurs. The second section, "Realizing the Vision," presents a five-stage framework to help partners collaborate and develop their own process for changing complex systems, a process that focuses on long-term change while being flexible enough to respond to changing circumstances and conditions. The third part, "Communities Moving toward the Vision," profiles four collaboratives with initiatives to integrate and link services to schools. Appendices include two assessment checklists; a directory of key contacts and organizational resources; and a bibliography that includes sources for more specific guidance on the topics discussed in this guide. Unlike other coffee books, this

one focuses exclusively on coffee—not espresso—and explores multiple pour-over, immersion, and cold-brew techniques on 10 different devices. Thanks to a small but growing number of dedicated farmers, importers, roasters, and baristas, coffee quality is at an all-time high. With dozens of equipment options, conflicting information on how to use that equipment, and an industry language that, at times, doesn't seem made for the rest of us, it can be difficult to know where to begin. *Craft Coffee: A Manual*, written by a coffee enthusiast for coffee enthusiasts, provides all the information readers need to discover what they like in a cup of specialty coffee—and how to replicate the perfect cup day after day. From the science of extraction and brewing techniques to choosing equipment and deciphering coffee bags, *Craft Coffee* focuses on the issues—cost, time, taste, and accessibility—that home coffee brewers negotiate and shows that no matter where you are in your coffee journey, you can make a great cup at home.

What is karma? Most people understand karma as a balance sheet of good and bad deeds, virtues and sins. The mechanism that decrees that we cannot evade the consequences of our own actions. In reality, karma has nothing to do with reward and punishment. Karma simply means action: your action, your responsibility. It isn’t some external system of crime and punishment, but an internal cycle generated by you. Accumulation of karma is determined only by your intention and the way you respond to what is happening to you. Over time, it’s possible to become ensnared by your own unconscious patterns of behavior. In *Karma*, Sadhguru seeks to put you back in the driver’s seat, turning you from a terror-struck passenger to a confident driver navigating the course of your own destiny. By living consciously and fully inhabiting each moment, you can free yourself from the cycle. *Karma* is an exploration and a manual, restoring our understanding of karma to its original potential for freedom and empowerment instead of a source of entanglement. Sadhguru's teachings, you will learn how to live intelligently and joyfully in a challenging world.
