Veteran television journalist Mike Wallace asked the question "What will life be like 50 years from now?" to sixty of the world's greatest minds. Their responses offer a fascinating glimpse into the cultural, scientific, political, and spiritual moods of the times. Edited and with an introduction by Mike Wallace, this book provides an imaginative and thought-provoking look into our collective soul and the critical issues that underlie our hopes, prayers, fears, and dreams for life in the 21st century. Contributors include former presidents, leading scientists, noted writers and artists, respected religious leaders, and current political figures, including: Vint Cerf, Vice President of Google; known as a "Father of the Internet" Francis S. Collins, M.D., Ph.D., a geneticist who led the Human Genome Project Dr. Wanda Jones, Director of the Office on Women's Health at the U.S. Department of Health and Human Services Ray Kurzweil, an inventor whose developments include the first print-to-speech reading machine for the blind and the first text-to-speech synthesizer General James E. For thousands of years, it has been viewed as an acceptable "spoil of war," used as a weapon by invading armies to crush the will of the conquered. The act of rape against women has long been cloaked in lies and false justifications. It is ignored, tolerated, even encouraged by governments and military leaders, misunderstood by police and security organizations, freely employed by domineering husbands and lovers, downplayed by medical and legal professionals more inclined to "blame the victim," and, perhaps most shockingly, accepted in supposedly civilized societies worldwide, including the United States. Against Our Will

is a classic work that has been widely credited with changing prevailing attitudes about violence against women by awakening the public to the true and continuing tragedy of rape around the globe and throughout the ages. Selected by the New York Times Book Review as an Outstanding Book of the Year and included among the New York Public Library's Books of the Century, *Against Our Will* remains an essential work of sociological and historical importance. A man leaves his father and mother and is joined to his wife, and the two are united into one. Genesis 2:24 NLT An invitation to harness the magnetic draw of your differences and blend better with your spouse in life and love. Where there's a WILL, there's a WAY. . .While a man possesses a unique God-given motivational propensity for exercising a strong will in life, a woman conversely possesses a unique God-given propensity for discerning the appropriate way of life. Through ups and downs, these magnetic tensions have helped husband and wife writing team, Robert and Pamela Crosby, learn to balance, bend, and blend in their marriage--to appreciate the balance their differences bring, to bend more appropriately in response to each other, and to move toward a more joyous blend that can only emerge out of two quite different ways somehow turned into one. Simply put, where there's a WILL, there's a WAY. Tony's autobiography is a commemoration of the lives and adventures of those bold and enterprising men and women who braved the dangers of the ocean, the hostilities of a new environment and the privations of a residence on a distant coast to procure a better way of life for themselves and their families. In tracing the history of Tony's life, we trace the history of the growth of a community and a people who amidst difficult circumstances were able to achieve a large measure of success and recognition for themselves. Life can be difficult. But does God care? Don Moen has learned to lean on God's promises in good times as well as bad and he says, "You can still trust Him." "A person would need to look a long time to find a purer heart and voice than those of Don Moen." —Max Lucado In his new memoir featuring snapshots from his life and career, Don shares heartfelt stories of gentle comfort for people looking for answers. Don asserts, that God has not forgotten us even when... We face a job loss We go through an unexpected divorce We receive a bad report from the doctor We face the death of a loved one As a beloved songwriter and worship leader, Don Moen is the author of classic songs like "Thank you, Lord" and "God Will Make a Way"— the inspiration for this book. He knows what it means to feel anxious, worried, and down. And he knows what it means to persevere and see a new day. If you enjoy the encouraging style of Max Lucado, and if you find comfort in the books of Gary Chapman, then you will love reading *God Will Make a Way*, a new release from Thomas Nelson. A wild Australian adventure begins with the kidnapping of two boys in the action novel *Will's Way: On Lake Coothella*. Tim and Nick are abducted from their lakeside camp-over on New Year's Eve. What the criminals don't realise is the resourcefulness and determination, not only of the boys themselves but of their family and friends, who rally their separate rescue expeditions. Will, Tiff, and Matt immediately

begin the pursuit in an old inflatable, while Billy and Jamie borrow a boat to help free their friends. Then Spiro and the mysterious Maria join the action. What results is a long and dangerous chase in a variety of boats, at night, over the lake displaying bravery and resourcefulness. This is followed by a determined pursuit through a pine forest, culminating in the final confrontation between the evil mastermind and Will Peters' mother. No matter the industry, he says, a successful company with established products will get pushed aside unless managers know how and when to abandon traditional business practices. Offering both successes and failures from leading companies as a guide, *The Innovator's Dilemma* gives you a set of rules for capitalizing on the phenomenon of disruptive innovation. Sharp, cogent, and provocative—and consistently noted as one of the most valuable business ideas of all time—*The Innovator's Dilemma* is the book no manager, leader, or entrepreneur should be without. Fun guide to learning Bayesian statistics and probability through unusual and illustrative examples. Probability and statistics are increasingly important in a huge range of professions. But many people use data in ways they don't even understand, meaning they aren't getting the most from it. *Bayesian Statistics the Fun Way* will change that. This book will give you a complete understanding of Bayesian statistics through simple explanations and un-boring examples. Find out the probability of UFOs landing in your garden, how likely Han Solo is to survive a flight through an asteroid shower, how to win an argument about conspiracy theories, and whether a burglary really was a burglary, to name a few examples. By using these off-the-beaten-track examples, the author actually makes learning statistics fun. And you'll learn real skills, like how to:

- How to measure your own level of uncertainty in a conclusion or belief
- Calculate Bayes theorem and understand what it's useful for
- Find the posterior, likelihood, and prior to check the accuracy of your conclusions
- Calculate distributions to see the range of your data
- Compare hypotheses and draw reliable conclusions from them

Next time you find yourself with a sheaf of survey results and no idea what to do with them, turn to *Bayesian Statistics the Fun Way* to get the most value from your data. Short Story Press Presents *Will's Way* by Tara Mitchell *Will's Way* tells about a young man growing into his own during his senior year in high school. He and his father had always had a somewhat distant if not strained relationship. Will was however very close with his mother and his little brother. He didn't necessarily want to leave his family but he wanted to return to the only place that ever felt like home. He goes about making that plan work until he finally sees that he is very happy, successful at work and relationships and best off right where he is.

Short Stories Press publishes short stories written by everyday writers. How will artificial intelligence change our world within twenty years? A WALL STREET JOURNAL, WASHINGTON POST, AND FINANCIAL TIMES BEST BOOK OF THE YEAR • “This inspired collaboration between a pioneering technologist and a visionary writer of science fiction offers bold and urgent insights.”—Yann LeCun, winner of the Turing Award; chief AI scientist, Facebook “Amazingly entertaining . . . Lee and Chen take us on an immersive trip through the future. . . . Eye-opening.”—Mark Cuban AI will be the defining development of the twenty-first century. Within two decades, aspects of daily human life will be unrecognizable. AI will generate unprecedented wealth, revolutionize medicine and education through human-machine symbiosis, and create brand-new forms of communication and entertainment. In liberating us from routine work, however, AI will also challenge the organizing principles of our economic and social order. Meanwhile, AI will bring new risks in the form of autonomous weapons and smart technology that inherits human bias. AI is at a tipping point, and people need to wake up—both to AI’s radiant pathways and its existential perils for life as we know it. In this provocative, utterly original work, Kai-Fu Lee, the former president of Google China and bestselling author of *AI Superpowers*, teams up with celebrated novelist Chen Qiufan to imagine our world in 2041 and how it will be shaped by AI. In ten gripping short stories, they introduce readers to an array of eye-opening 2041 settings, such as:

- In San Francisco, the “job reallocation” industry emerges as deep learning AI causes widespread job displacement
- In Tokyo, a music fan is swept up in an immersive form of celebrity worship based on virtual reality and mixed reality
- In Mumbai, a teenage girl rebels when AI’s crunching of big data gets in the way of romance
- In Seoul, virtual companions with perfected natural language processing (NLP) skills offer orphaned twins new ways to connect
- In Munich, a rogue scientist draws on quantum computing, computer vision and other AI technologies in a revenge plot that imperils the world

By gazing toward a not-so-distant horizon, *AI 2041* offers urgent insights into our collective future—while reminding readers that, ultimately, humankind remains the author of its destiny. “A bold, wise, magical, and authentic novel about youthful infatuation and its legacy. Hannah Pittard’s beautifully confident prose is sure to make readers look back on their own teenage years with fresh wonder.” —Vendela Vida, author of *The Lovers Already* acclaimed for her short fiction—a McSweeney’s Amanda Davis Highwire Fiction Award winner whose work was selected by Salman Rushdie for inclusion in 2008 Best American Short Stories’ 100 Distinguished Stories—Hannah

Pittard proves herself a master of long form fiction as well with her haunting, masterfully crafted debut novel, *The Fates Will Find Their Way*. A powerful and beautiful literary masterwork reminiscent of *The Virgin Suicides*, Pittard's *The Fates Will Find Their Way* tells the unforgettable story of a teenaged girl gone missing, and the boys she grew up with who find themselves caught in the mysterious wake of her absence for the rest of their lives. *Up in the Air* meets *Inception* in this smart, innovative, genre-synthesizing novel from the acclaimed author of *Care of Wooden Floors*—hailed as “Fawlty Towers crossed with Freud,” by the *Daily Telegraph*—that takes the polished surfaces of modern life, the branded coffee, and the free wifi, and twists them into a surrealistic nightmare of infinite proportions. Neil Double is a “conference surrogate,” hired by his clients to attend industry conferences so that they don't have to. It's a life of budget travel, cheap suits, and out-of-town exhibition centers—a kind of paradise for Neil, who has reconstructed his incognito professional life into a toxic and selfish personal philosophy. But his latest job, at a conference of conference organizers, will radically transform him and everything he believes as it unexpectedly draws him into a bizarre and speculative mystery. In a brand new *Way Inn*—a global chain of identikit mid-budget motels—in an airport hinterland, he meets a woman he has seen before in strange and unsettling circumstances. She hints at an astonishing truth about this mundane world filled with fake smiles and piped muzak. But before Neil can learn more, she vanishes. Intrigued, he tries to find her—a search that will lead him down the rabbit hole, into an eerily familiar place where he will discover a dark and disturbing secret about the *Way Inn*. Caught on a metaphysical Mobius strip, Neil discovers that there may be no way out. In this best-selling, award-winning book, now in paperback, Drs. Cloud and Townsend introduce eight persuasive principles that demonstrate how God enters both the heart-breaking situation and the life looking for more. These principles are applied to readers' lives so that their relationships will be better, they'll have more control over their lives, and their spiritual hunger will be satisfied. If you've ever fallen in love with the wrong person, been held back by your insecurities, endured the pressures of family, dealt with the loss of a loved one, or fought to overcome obsessive behaviours in yourself or in others, then you've participated in the folly of life. In other words, you've undertaken a role in the high drama - and comedy - of a Shakespeare play. Covering such universal subjects as identity, the battle of the sexes, family relationships, love, loss and death, Maguire shows how the dilemmas illustrated in the bard's classic tragedies, comedies and histories can help readers explore their own emotions and judgements. Together, Maguire and Shakespeare offer suggestions, comfort, empathy, and encouragement as they set out a timeless principle for living. To read Shakespeare is to understand what it means to be human. To read “Where There's a Will There's a Way” is to better understand how to deal with it. Clay Christensen's groundbreaking bestselling work in education now updated and expanded, including a new chapter on Christensen's seminal "Jobs to Be Done" theory applied to education. "Provocatively titled, *Disrupting Class* is just what America's K-12

education system needs--a well thought-through proposal for using technology to better serve students and bring our schools into the 21st Century. Unlike so many educational 'reforms,' this is not small-bore stuff. For that reason alone, it's likely to be resisted by defenders of the status quo, even though it's necessary and right for our kids. We owe it to them to make sure this book isn't merely a terrific read; it must become a blueprint for educational transformation." —Joel Klein, Chancellor of the New York City Department of Education "A brilliant teacher, Christensen brings clarity to a muddled and chaotic world of education." —Jim Collins, bestselling author of Good to Great "Just as iTunes revolutionized the music industry, technology has the potential to transform education in America so that every one of the nation's 50 million students receives a high quality education. Disrupting Class is a must-read, as it shows us how we can blaze that trail toward transformation." —Jeb Bush, former Governor of Florida

According to recent studies in neuroscience, the way we learn doesn't always match up with the way we are taught. If we hope to stay competitive-academically, economically and technologically-we need to rethink our understanding of intelligence, reevaluate our educational system, and reinvigorate our commitment to learning. In other words, we need "disruptive innovation." Now, in his long-awaited new book, Clayton M. Christensen and coauthors Michael B. Horn and Curtis W. Johnson take one of the most important issues of our time-education-and apply Christensen's now-famous theories of "disruptive" change using a wide range of real-life examples. Whether you're a school administrator, government official, business leader, parent, teacher, or entrepreneur, you'll discover surprising new ideas, outside-the-box strategies, and straight-A success stories. You'll learn how: Customized learning will help many more students succeed in school Student-centric classrooms will increase the demand for new technology Computers must be disruptively deployed to every student Disruptive innovation can circumvent roadblocks that have prevented other attempts at school reform We can compete in the global classroom-and get ahead in the global market Filled with fascinating case studies, scientific findings, and unprecedented insights on how innovation must be managed, Disrupting Class will open your eyes to new possibilities, unlock hidden potential, and get you to think differently. Professor Christensen and his coauthors provide a bold new lesson in innovation that will help you make the grade for years to come. The future is now. Class is in session. Terry Rush tells his own story and the true stories of others who were dealt devastating blows, but trusted an unseen God to lead them on an unknown road to the comfort and assurance that they so desperately sought. He knows it and wants to change... but not before he hits his goal to sleep with Based on the documentary THAT SUGAR FILM, this is an explosive exposé of the dangers of sugar. When Australian actor and filmmaker Damon Gameau met a girl he wanted to impress, he decided to get healthy by reducing his sugar intake. In no time he was slimmer, calmer, fitter and happier. But he was also curious: why did the elimination of sugar have such beneficial effects? He decided to experiment by eating 40 teaspoons of sugar a day over the course of 60 days. The results were staggering. Gameau gained nearly 20 pounds; he developed signs of fatty liver disease; and doctors warned him that he was on the road to obesity, diabetes, and heart disease. His journey took him not just down a path to illness, but deep into an investigation into how our food is made and marketed. Gameau interviewed experts and discovered that 80% of products on our supermarket shelves contain sugar, and that 90 million Americans have fatty liver disease directly linked to their sugar consumption. Expanding on That Sugar Film, That Sugar Book offers 30 recipes, in-depth interviews, and colorful graphic images to reveal the truth behind the world's alarming and health-destroying sugar habit. Book of 2017 An ode to Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds's electrifying novel that takes place in sixty potent seconds—the time it takes a kid to decide whether or not he's going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer. A tool for RULE. Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and she knows what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce, staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds. Practical help for understanding and following God's will for your life. "God has a plan for our lives," but what does that mean in practical terms? How do we know God's will for important life decisions, like who to marry, what job to take, what church to join? How can we be sure if God has a perfect plan for us? Does suffering mean we are off track? How exactly does God speak? Author Jerry Sittser explores these questions and offers a biblically based approach that is truly liberating. No matter what decisions we've already made, he points out that it is still possible to live out God's perfect will—even if we think we've married the wrong person, chosen the wrong career, or landed in some kind of serious trouble. This new edition includes study questions designed to help individuals or groups who are faced with decisions—large or small. From "America's favorite novelist" (The New Yorker), a young woman inherits a fortune—and an even greater gift of love just in time for the holidays—in #1 New York Times bestselling author Nora Roberts's A Will and a Way. When her beloved Uncle Jolley died, Pandora McVie couldn't imagine her life without him—only to discover that he planned for her future by leaving her \$150 million. But to collect her inheritance, Pandora must spend six months in her uncle's isolated Catskills mansion with her co-beneficiary, Michael Donohue. If being set up on a half-year date that lasts through Christmas by a last will and

testament isn't humiliating enough, Pandora finds living with Michael intolerable—even as she falls in love with him... When Daphne's man changes his mind about marriage, Daphne focused on a good life for herself and her new daughter, leaving what will be up to God.
