Fresh, exciting, and deeply romantic, Time Between Us is a stunning and spellbinding debut from an extraordinary new talent in YA fiction. "A beautifully written, unique love story." --Melissa Marr, New York Times best-selling author of The Wicked Lovelyseries "The story will hold readers with its twists and turns, present and future; its love, sadness, and anger; and especially, its surprising secrets." -- Booklist "A warm, time-bending romance [that] will have readersrooting for the couple that keeps daring fate." -- Publishers Weekly "Time Between Us is the very best kind of love story --heart-pounding, intense, and unputdownable!" -- Elizabeth Scott, author ofBloom and Perfect You Plastic is ubiquitous. It is in the Arctic, in the depths of the Mariana Trench, and in the high mountaintops of the Pyrenees. It is in the air we breathe and the water we drink. Nanoplastics penetrate our cell walls. Plastic is not just any material—it is emblematic of life in the twentieth and twenty-first centuries. In Plastic Matter Heather Davis traces plastic's relations to geology, media, biology, and race to show how matter itself has come to be understood as pliable, disposable, and consumable. The invention and widespread use of plastic, Davis contends, reveals the dominance of the Western orientation to matter and its assumption that matter exists to be endlessly manipulated and controlled by humans. Plastic's materiality and pliability reinforces these expectations of what matter should be and do. Davis charts these relations to matter by mapping the queer multispecies relationships between humans and plastic-eating bacteria and analyzing photography that documents the racialized environmental violence of plastic production. In so doing, Davis provokes readers to reexamine their relationships to matter and life in light of plastic's saturation. Allie is overwhelmed when her boyfriend, Trip, dies in a car accident, leaving her scarred and unable to recall what happened that night, but she feels she must uncover the truth, even if it could hurt the people who tried to save her from Trip's abuse. In this bittersweet romance, two teens living decades apart form a bond that will change

their lives forever. Amy is drawn to the misty, mysterious clearing behind her Aunt Mae's place because it looks like the perfect place to hide from life. A place to block out the pain of her last relationship, to avoid the kids in her new town, to stop dwelling on what her future holds after high school. Then, she meets a boy lurking in the mist—Henry. Henry is different from any other guy Amy has ever known. And after several meetings in the clearing, she's starting to fall for him. But Amy is stunned when she finds out just how different Henry really is. Because on his side of the clearing, it's still 1944. By some miracle, Henry and his family are stuck in the past, staving off the tragedy that will strike them in the future. Amy's crossing over to Henry's side brings him more happiness than he's ever known—but her presence also threatens to destroy his safe existence. In *The Clearing*, author Heather Davis crafts a tender and poignant tale about falling in love, finding strength, and having the courage to make your own destiny—a perfect book to slip into and hide away for awhile. *Ghost Fishing* is the first anthology to focus solely on poetry with an eco-justice bent. A culturally diverse collection entering a field where nature poetry anthologies have historically lacked diversity, this book presents a rich terrain of contemporary environmental poetry with roots in many cultural traditions. Eco-justice poetry is poetry born of deep cultural attachment to the land and poetry born of crisis. Aligned with environmental justice activism and thought, eco-justice poetry defines environment as “the place we work, live, play, and worship.” This is a shift from romantic notions of nature as a pristine wilderness outside ourselves toward recognition of the environment as home: a source of life, health, and livelihood. *Ghost Fishing* is arranged by topic at key intersections between social justice and the environment such as exile, migration, and dispossession; war; food production; human relations to the animal world; natural resources and extraction; environmental disaster; and cultural resilience and resistance. This anthology seeks to expand our consciousness about the interrelated nature of our experiences and act as a starting point for conversation about the current state of our environment. From the 1890s through the 1920s, the best-selling fiction of Ralph Connor, Robert Stead, Nellie McClung, Lucy Maud Montgomery, and Arthur Stringer was

internationally recognized. In this intriguing cultural history of the conception, production, and reception of popular fiction, Clarence Karr challenges the common assumption that best sellers are a conservative cultural influence, reflecting and promoting traditional values. By focusing on a society and its cultural leaders at a period when they were coming to grips with modernity, Karr provides a new perspective on popular culture and the interaction between readers and popular authors. Would you be tempted? Newly single, Tilly Cole impulsively accepts a job offer in a small town as a "Girl Friday." Fun job, country house, fresh start, why not? The world's most infamous hacker offers an insider's view of the low-tech threats to high-tech security Kevin Mitnick's exploits as a cyber-desperado and fugitive form one of the most exhaustive FBI manhunts in history and have spawned dozens of articles, books, films, and documentaries. Since his release from federal prison, in 1998, Mitnick has turned his life around and established himself as one of the most sought-after computer security experts worldwide. Now, in *The Art of Deception*, the world's most notorious hacker gives new meaning to the old adage, "It takes a thief to catch a thief." Focusing on the human factors involved with information security, Mitnick explains why all the firewalls and encryption protocols in the world will never be enough to stop a savvy grifter intent on rifling a corporate database or an irate employee determined to crash a system. With the help of many

fascinating true stories of successful attacks on business and government, he illustrates just how susceptible even the most locked-down information systems are to a slick con artist impersonating an IRS agent. Narrating from the points of view of both the attacker and the victims, he explains why each attack was so successful and how it could have been prevented in an engaging and highly readable style reminiscent of a true-crime novel. And, perhaps most importantly, Mitnick offers advice for preventing these types of social engineering hacks through security protocols, training programs, and manuals that address the human element of security. Building on the author's work in *The Big Book of Teen Reading Lists*, this book provides 101 new and revised reading lists created in consultation with teachers and public librarians—an invaluable resource for any educator who plans activities for children that involve using literature.

Who is trustworthy? And who is worthy of her heart? When her grandmother dies, Catherine Llywellyn finds herself alone in the world. A modern classic for this generation is being relaunched with an all-new, beautifully illustrated edition that follows Heather as she goes to playgroup and feels badly at first because she has two mothers and no father, but then she learns that there are lots of different kinds of families and the most important thing is that all the people love each other. #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of

experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences. Vicki Myron follows up her #1 New York Times bestseller *Dewey* with stories of cats who inspire their owners and includes two brand-new Dewey stories! *Dewey's Nine Lives* offers nine funny, inspiring, and heartwarming stories about cats—all told from the perspective of "Dewey's Mom," librarian Vicki Myron. *Dewey: The Small-Town Library Cat Who Touched the World* was a blockbuster bestseller and a publishing phenomenon. It has sold nearly a million copies, spawned three children's books, and will be the basis for an upcoming movie. No doubt about it, Dewey has created a community. Dewey touched readers everywhere, who realized that no matter how difficult their lives might seem, or how ordinary their talents, they can-and should-make a positive difference to those around them. Now, Dewey is back, with even more heartwarming moments and life lessons to share. The amazing felines in this book include Dewey, of course, whose further never-before-told adventures are shared, and several others who Vicki found out about when their owners reached out to her. Vicki learned, through extensive interviews and story sharing, what made these cats special, and how they fit into Dewey's community of perseverance and love. From a divorced mother in Alaska who saved a drowning kitten on Christmas Eve to a troubled Vietnam veteran whose heart was opened by his long relationship with a rescued cat, these Dewey-style stories will inspire readers to laugh, cry, care, and, most importantly, believe in the magic of animals to touch individual lives. A mesmerizing collection of playfully surreal stories from one of Norway's most celebrated writers First published in Norway in 2004, Knots is Gunnhild Øyehaug's radical collection of short stories that range from the surreal to the oddly mundane, and prod the discomforts of mental, sexual, and familial bonds. In both precise short-shorts and ruminative longer tales, Øyehaug meanders through the tangled, jinxed, and unavoidable conflicts of love and desire. From young Rimbaud's thwarted passions to the scandalous disappearance of an entire family, these stories do the chilling work of tracing the outlines of what could have been in both the quietly morbid and the delightfully comical. A young man is born with an uncuttable umbilical cord and spends his life physically tethered to his mother; a tipsy uncle makes an uncomfortable toast with unforeseeable repercussions; and a dissatisfied deer yearns to be seen. As one character reflects, "You never know how things might turn out, you never know how anything will turn out, tomorrow the walls might fall down, the room disappear." Cleverly balancing the sensuous, the surreal, and the comical, Øyehaug achieves a playful familiarity with the absurd that never overreaches the needs of her stories. Full of characters who can't help tying knots in themselves and each other, these tales make the world just a little more strange, and introduce a major international voice of searing vision, grace, and humor. What's better than a lost treasure? Seven lost treasures! These rarely seen Dr. Seuss stories were published in magazines in the early 1950s and are finally available in book form. They include "The Bippolo Seed" (in which a scheming feline leads a duck toward a bad decision), "The Rabbit, the Bear, and the Zinniga-Zanniga" (about a rabbit who is saved from a bear by a single eyelash), "Gustav, the Goldfish" (an early rhymed version of the Beginner Book A Fish Out of Water), "Tadd and Todd" (about a twin who is striving to be an individual), "Steak for Supper" (in which fantastic creatures follow a boy home in anticipation of a steak dinner), "The Strange Shirt Spot" (the inspiration for the bathtub-ring scene in The Cat in the Hat Comes Back), and "The Great Henry McBride" (about a boy whose far-flung career fantasies are bested only by those of Dr. Seuss himself). An introduction by Seuss scholar Charles D. Cohen traces the history of the stories, which demonstrate an intentional move toward the writing style we now associate with Dr. Seuss. Cohen also explores the themes that recur in well-known Seuss stories (like the importance of the imagination or the perils of greed). With a color palette enhanced beyond the limitations of the original magazines, this is a collection that no Seuss fan (whether scholar or second grader) will want to

miss. The technique is simple; the results are gorgeous, Heather has created an array of refined, sophisticated and incredibly modern-looking projects that are perfect for beginners, yet enticing for more seasoned ceramicists. The pieces range from a mug, vase, and jug to a bowl, teapot, and triple herb planter, and they start with a basic pinch pot before moving on to wider, taller, and more composite forms, all with stunning options for color and surface decoration. And, since many of the items can be made with easily found air-drying clay, no kiln's required

Post Best Book of the Year Spanning the era between the Chicago World's Fair of 1893 and the years just after World War I, and constantly moving between locations across the globe (and to a few places not strictly speaking on the map at all), *Against the Day* unfolds with a phantasmagoria of characters that includes anarchists, balloonists, gamblers, drug enthusiasts, mathematicians, mad scientists, shamans, spies, and hired guns. As an era of uncertainty comes crashing down around their ears and an unpredictable future commences, these folks are mostly just trying to pursue their lives. Sometimes they manage to catch up; sometimes it's their lives that pursue them. While fighting with his best friend and college roommate over a girl, Jake says something he regrets, then begins communicating only through notes and letters, but when he wants to tell the girl how he really feels about her, his silence and penchant for puns get in the way. Every woman has had this experience: you get to the end of the day and realize you did nothing for you. And if you go days, weeks, or even months in this cycle, you begin to feel like you have lost a bit of yourself. While life is busy with a litany of must-dos--work, parenting, keeping house, grocery shopping, laundry and on and on--women do not have to push their own needs aside. Yet this is often what happens. There's just no time, right? Wrong. In this practical and liberating book, Jessica Turner empowers women to take back pockets of time they already have in their day in order to practice self-care and do the things they love. Turner uses her own experiences and those of women across the country to teach readers how to balance their many responsibilities while still taking time to invest in themselves. She also addresses barriers to this lifestyle, such as comparison and guilt, and demonstrates how eliminating these feelings and making changes to one's schedule will make the reader a better wife, mother, and friend. Perfect for any woman who is doing everything for everyone--except herself--*The Fringe Hours* is ideal for both individuals and small group use. Shame is everywhere. Whether it's related to relationships, body image, work difficulties, or a secret sin, we all experience shame at some point in our lives. Club, BuzzFeed, and PopSugar "I can't believe how good this book is.... It's wholly original. It's also perfect.... Wilson writes with such a light touch.... The brilliance of the novel [is] that it distracts you with these weirdo characters and mesmerizing and funny sentences and then hits you in a way you didn't see coming. You're laughing so hard you don't even realize that you've suddenly caught fire." —Taffy Brodesser-Akner, author of *Fleishman is in Trouble*, New York Times Book Review From the New York Times bestselling author of *The Family Fang*, a moving and uproarious novel about a woman who finds meaning in her life when she begins caring for two children with a remarkable ability. Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid,

demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison's buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn't this be the start of the amazing life she'd always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love. And it all starts so simply. You. Him. The moon. You're toast. Okay, so maybe Shelby has made a few mistakes with boys lately (how was she supposed to know Wes had "borrowed" that Porsche?). But her stepmother totally overreacts when she catches Shelby in a post-curfew kiss with a hot senior: Suddenly Shelby's summer plans are on the shelf, and she's being packed off to brat camp. It's good-bye, prom dress; hello, hiking boots. Things start looking up, though, when Shelby meets fellow camper (and son of a rock star) Austin Bridges III. But soon she realizes there's more to Austin than crush material—his family has a dark secret, and he wants Shelby's help guarding it. Shelby knows that she really shouldn't be getting tangled up with another bad boy . . . but who is she to turn her back on a guy in need, especially such a good-looking one? One thing's for sure: That pesky full moon is about to get her into trouble all over again.
