The smartphone was an incredibly successful Canadian invention created by a team of engineers and marketers led by Mike Lazaridis and Jim Balsillie. But there was a third key player involved — the community of Kitchener-Waterloo. In this book Chuck Howitt offers a new history of BlackBerry which documents how the resources and the people of Kitchener-Waterloo supported, facilitated, benefited from and celebrated the achievement that BlackBerry represents. After its few short years of explosive growth and pre-eminence, BlackBerry lost its market to digital juggernauts Apple, Samsung and Huawei. No surprises there. Like Nokia and Motorola before it, BlackBerry was eclipsed. Shareholders lost billions. Thousands of employees lost jobs. Bankruptcy was avoided but the company's founding geniuses were gone, leaving an operation that today is only a fragment of what had been. For Kitchener-Waterloo — as Chuck Howitt tells the story — the Blackberry experience is a mixed bag of disappointments and major ongoing benefits. The wealth it generated for its founders produced two very important university research institutes. Many recent digital startups have taken advantage of the city's pool of talented and experienced tech workers and ambitious, well-educated university grads. A strong digital and tech industry thrives today in Kitchener-Waterloo — in a way a legacy of the BlackBerry experience. Across Canada, communities hope for homegrown business successes like BlackBerry. This book underlines how a mid-sized, strong community can help grow a world-beating company, and demonstrates the importance of the attitudes and decisions of local institutions in enabling and sustaining successful innovation. Meet Earl Grey, a down-to-earth and down on his luck small-time newspaper reporter. Earl is a bit of an unreliable mess, albeit loveable, if absolutely necessary. Much to Earl's complete lack of surprise, he's about to have an even worse week than his usual misfortunes. Two days after the earth-shattering arrival of an alleged God in Phoenix, Arizona, in

2005, Earl is appointed as Media Liaison to this extremely ungodlike man discovered wearing Armani in the nearby barren desert. With God now confined to a hospital room, Earl suddenly finds himself with exclusive access to the Almighty. And with great access comes great demand, as our less than intrepid reporter quickly discovers, meeting a feast of both loveable and despicable characters. All of whom are not entirely what they seem. But one thing is certain, they all want something from this newly arrived God and plan to go through Earl to get it. However, Earl, a lifelong atheist and skeptic, has other plans and sets about to uncover this unusual man's true identity before His time on earth runs out. Thrust into global celebrity and a massive mid-life course correction, it isn't long before Earl is overwhelmed, paranoid, and plagued with crippling self-doubt. But, as usual, he'll have to sort out the whole mess by himself. Hopefully, before the world comes to an end.
