At Last! A Beginner's Guide to Newborn Baby

Technology You've programmed your DVR,  
you've installed a wireless Internet connection,  
you can even check Facebook on your cell  
phone. But none of this experience will prepare  
you for the world's biggest technological  
marvel: a newborn baby. Through step-by-step  
instructions and helpful schematic diagrams,  
The Baby Owner's Manual explores hundreds of  
frequently asked questions: What's the best  
way to swaddle a baby? How can I make my  
newborn sleep through the night? When should  
I bring the baby to a doctor for servicing?  
Whatever your concerns, you'll find the answers  
here—courtesy of celebrated pediatrician Dr.  
Louis Borgenicht and his son, Joe Borgenicht.  
Together, they provide plenty of useful advice  
for anyone who wants to learn the basics of  
childcare. Popular Science gives our readers  
the information and tools to improve their  
technology and their world. The core belief that  
Popular Science and our readers share: The  
future is going to be better, and science and  
technology are the driving forces that will help  
make it better. Popular Mechanics inspires,  
instructs and influences readers to help them  
master the modern world. Whether it's  
practical DIY home-improvement tips, gadgets  
and digital technology, information on the  
newest cars or the latest breakthroughs in

science -- PM is the ultimate guide to our high-  
tech lifestyle. How can we think of life in its  
dual expression, matter and experience, the  
living and the lived? Philosophers and, more  
recently, social scientists have offered multiple  
answers to this question, often privileging one  
expression or the other - the biological or the  
biographical. But is it possible to conceive of  
them together and thus reconcile naturalist and  
humanist approaches? Using research  
conducted on three continents and engaging in  
critical dialogue with Wittgenstein, Benjamin,  
and Foucault, Didier Fassin attempts to do so  
by developing three concepts: forms of life,  
ethics of life, and politics of life. In the  
conditions of refugees and asylum seekers, in  
the light of mortality statistics and death  
benefits, and via a genealogical and  
ethnographical inquiry, the moral economy of  
life reveals troubling tensions in the way  
contemporary societies treat human beings.  
Once the pieces of this anthropological  
composition are assembled, like in Georges  
Perec's jigsaw puzzle, an image appears: that of  
unequal lives. DO YOU KNOW THAT YOU CAN

explores our relationship with 'the news' in this book full of his trademark wit and wisdom. Following on from his bestselling Religion for Atheists, Alain de Botton turns now to look at the manic and peculiar positions that 'the news' occupies in our lives. We invest it with an authority and importance which used to be the preserve of religion - but what does it do for us? Mixing current affairs with philosophical reflections, de Botton offers a brilliant illustrated guide to the precautions we should take before venturing anywhere near the news and the 'noise' it generates. Witty and global in reach, The News will ensure you'll never look at reports of a celebrity story or political scandal in quite the same way again. Praise for Religion for Atheists: 'Smart and stimulating . . . a sensitive analysis of the deeply human needs that faith meets' Financial Times 'A serious and optimistic set of practical ideas that could improve and alter the way we live . . . energetic and on the side of the angels' Jeanette Winterson, The Times 'Packed with tantalising goads to thought and playful prompts to action' Independent Alain de Botton's bestselling books include Religion for Atheists, How Proust Can Change Your Life, The Art of Travel, and The Architecture of Happiness. He lives in London and founded The School of Life ([www.theschooloflife.com](http://www.theschooloflife.com)) and Living Architecture ([www.living-architecture.co.uk](http://www.living-architecture.co.uk)).
