Excellence in Everything If service were a simple task, there wouldn't be so many scathing Yelp reviews or dissatisfied customers venting online, on their smartphones, or at the nearest restaurant or dry cleaners. Such pique has a cost: One survey found that 94 percent of respondents avoided a purchase after reading a negative online review. Eighty percent changed their mind about a recommended purchase because of a "thumbs down." Mike Kai has encountered reasons for such reactions, be that botched food orders, unreasonable delays, or service with anything but a smile. The way to overcome such business killers lies in the teaching implicit in a centuries-old story: King Solomon and the Queen of Sheba. Although details of the queen's visit to the famed, wise leader of Israel are brief, in this creative reflection Mike weaves the details of what we do know into modern-day business principles. In doing so, he shows how it is possible to employ the kind of excellence that turned the heads of royalty years ago-and will still impress others. In *Eyes on Culture: Multiply Excellence in Your School*, Emily Paschall supplies the recipe for success in today's schools. School culture is the hidden curriculum that drives a school forward or backward, and when strong relationships and relentless passion are at its root, this is when excellence multiplies. This book is filled with a wide range of authentic stories and lessons, as well as tangible takeaways that will "culturize" your classroom, school, and community. As you read, your belief system about what a dynamic school culture is, and what it is not will be firmly molded. Whether you are a teacher or administrator, this book will fill you with a renewed energy, passion, and belief that all kids, regardless of circumstances or socio-economic status, can succeed at high levels. Emily provides you with the necessary tools to not only live your own excellence, but to multiply excellence in others. Invest in excellence--for your students every day, your colleagues year after year, and yourself for a lifetime. Jimmy Casas, veteran educator and author of *Culturize*, believes that by cultivating a mindset that centers on investing in students, colleagues, and--most of all--themselves, educators can shift schools away from a culture that runs on compliance, blame, and fear. In *Live Your Excellence*, he shares inspiration, stories, and strategies to help overcome the negative undercurrents that exist in school culture today. Jimmy explains how educators of all stripes can embrace an investment-based approach to everything from collaborative leadership to challenging students to feelings of inadequacy. His insights into navigating the complexities of working in schools will be an invaluable resource for all of the educators who desire--more than anything--to rediscover their own excellence and make a difference. Dave Burgess Consulting books *What can you do to achieve excellence as an educator and inspire it in your students and staff every single day?* In this outstanding book, Jimmy Casas answers that question with refreshing honesty and insight. --Manny Scott, Original Freedom Writer, author, speaker This book is a gift to any educator who wants to make their school better than it's ever been. --Dr. Jody Carrington, Author, speaker, game changer This is a wonderful book filled with great ideas and strategies, but what makes it special are the stories--some will break your heart, some will help you put it back together, and all of them will remind you of the importance of living our best lives and helping others live their best lives too. --Jim Knight, Senior partner, Instructional Coaching Group "In *A Teacher's Guide to Excellence in Every Classroom: Creating Support Systems for Student Success*, author John R. Wink acknowledges the unique and significant role that educators play in the lives of their students both as role models and guides. Teachers in the 21st century are far more than simple educators in the lives of their students. As such, this book acts as a guide for educators who wish to maximize their impact in their students' lives and unlock their students' full potential. Readers will not only learn how to increase their effectiveness as educators, but how to push all their students toward academic excellence"-- This book reports findings of a three-nation study of public relations and communication management sponsored by the International Association of Business Communicators (IABC) Research Foundation. The Excellence Study provides communication managers and public relations practitioners with information critical to their own professional growth, and supplies organizations with tools that help them communicate more effectively and build beneficial relations with key publics. Communication excellence is a powerful idea of sweeping scope that applies to all organizations -- large or small -- that need to communicate effectively with publics on whom the organization's survival and growth depend. The essential elements of excellent communication are the same for corporations, not-for-profit organizations, government agencies, and professional/trade associations. And they are applicable on a global basis. The study identifies three spheres of communication excellence. These spheres consider the overall function and role of communication in organizations, and define the organization of this book. They are: \* the core or inner sphere of communication excellence -- the knowledge base of the communication department, \* the shared expectations of top communicators and senior managers about the function and role of communication, and \* the organization's culture -- the larger context that either nurtures or impedes

communication excellence. This text also examines communication excellence as demonstrated in specific programs developed for specific publics. Study Guide.
