The book that changed the conversation on the contemporary museum In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. Eleven stories narrated by a young recovering alcoholic, whose dependency has led him to crime, cruelty, and loss in the Midwest, depict the disparity of emotions that constitute the American experience. Brilliant and engagingly written, *Why Nations Fail* answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo, and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably

homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America, England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including: - China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West? - Are America's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority? - What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson's breakthrough ideas on the interplay between inclusive political and economic institutions? *Why Nations Fail* will change the way you look at—and understand—the world. "One of the most admired men in the world of seduction" (The New York Times) teaches average guys how to approach, attract and begin intimate relationships with beautiful women For every man who always wondered why some guys have all the luck, *Mystery*, considered by many to be the world's greatest pickup artist, finally reveals his secrets for finding and forming relationships with some of the world's most beautiful women. *Mystery* gained mainstream attention for his role in Neil Strauss's New York Times bestselling exposé, *The Game*. Now he has written the definitive handbook on the art of the pickup. He developed his unique method over years of observing social dynamics and interacting with women in clubs to learn how to overcome the guard shield that many women use to deflect come-ons from "average frustrated chumps." *The Mystery Method: How to Get Beautiful Women Into Bed* shares tips such as: \*Give more attention to her less attractive friend at first, so your target will get jealous and try to win your attention. \*Always approach a target within 3 seconds of noticing her. If a woman senses your hesitation, her perception of your value will be lower. \*Don't be picky. Approach as many groups of people in a bar as you can and entertain them with fun conversation. As you move about the room, positive

perception of you will grow. Now it's easy to meet anyone you want. \*Smile. Guys who don't get laid, don't smile. England, 1940. Barney's home has been destroyed by bombing, and he and his mother are traveling to the countryside when German planes attack. Their train is forced to take shelter in a tunnel and there, in the darkness, a stranger— a fellow passenger—begins to tell them a story about two young soldiers who came face to face in the previous war. One British, one German. Both lived, but the British soldier was haunted by the encounter once he realized who the German was: the young Adolf Hitler. The British soldier made a moral decision. Was it the right one? Readers can ponder that difficult question for themselves with Michael Morpurgo's latest middle-grade novel *An Eagle in the Snow*. She moved headstrong up and down steep, smoky terrain that no man could travail confidently. In a single day, this small Mongolian mare made fifty-one round-trips carrying nearly five tons of explosives to various gun sites. Sergeant Reckless was her name, and she was the horse renowned for carrying wounded soldiers on and off the battlefield and making solo trips across combat zones to deliver supplies. A widely celebrated national hero, Reckless was first featured in 1954 in the Saturday Evening Post and more recently in 1997 when LIFE magazine published an edition lauding history's one hundred all-time heroes. Equine enthusiast Robin Hutton learned about Sergeant Reckless and spearheaded the effort to commission a monument at the National Museum of the Marine Corps in Triangle (Quantico), VA. In July of 2013, the statue was unveiled. A second monument is planned for Camp Pendleton, where Reckless lived out her days and is buried. Hutton has now written the first-ever full biography of Sergeant Reckless, who earned two Purple Hearts for her heroic efforts (among other military decorations). Hutton has spoken with the Marines who fought alongside Reckless and tells the complete and captivating tale of how a would-be Korean racehorse became one of the greatest Marine wartime heroes. Sgt. Reckless brings the legend back to life more than half a century later. From the bestselling author of Charlie and the Chocolate Factory and The BFG! The calculated use of media by those in power is a phenomenon dating back at least to the seventeenth century, as Harold Weber demonstrates in this illuminating study of the relation of print culture to kingship under England's Charles II. Seventeenth-century London witnessed an enormous expansion of the print trade, and with this expansion came a revolutionary change in the relation between political authority—especially the monarchy—and the printed word. Weber argues that Charles' reign was characterized by a particularly fluid relationship between print and power. The press helped bring about both the deconsecration of divine monarchy and the formation of a new public sphere, but these processes did not result in the progressive decay of royal authority. Charles fashioned his own semiotics of power out of the political transformations that had turned his world upside down. By linking diverse and unusual topics—the escape of Charles from Worcester, the royal ability to heal scrofula, the sexual escapades of the "merry monarch," and the trial and

execution of Stephen College—Weber reveals the means by which Charles took advantage of a print industry instrumental to the creation of a new dispensation of power, one in which the state dominates the individual through the supplementary relationship between signs and violence. Weber's study brings into sharp relief the conflicts involving public authority and printed discourse, social hierarchy and print culture, and authorial identity and responsibility—conflicts that helped shape the modern state. NEW YORK TIMES BESTSELLER • The first definitive history of the Mossad, Shin Bet, and the IDF's targeted killing programs, hailed by The New York Times as "an exceptional work, a humane book about an incendiary subject." WINNER OF THE NATIONAL JEWISH BOOK AWARD IN HISTORY NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY JENNIFER SZALAI, THE NEW YORK TIMES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Economist • The New York Times Book Review • BBC History Magazine • Mother Jones • Kirkus Reviews The Talmud says: "If someone comes to kill you, rise up and kill him first." This instinct to take every measure, even the most aggressive, to defend the Jewish people is hardwired into Israel's DNA. From the very beginning of its statehood in 1948, protecting the nation from harm has been the responsibility of its intelligence community and armed services, and there is one weapon in their vast arsenal that they have relied upon to thwart the most serious threats: Targeted assassinations have been used countless times, on enemies large and small, sometimes in response to attacks against the Israeli people and sometimes preemptively. In this page-turning, eye-opening book, journalist and military analyst Ronen Bergman—praised by David Remnick as "arguably [Israel's] best investigative reporter"—offers a riveting inside account of the targeted killing programs: their successes, their failures, and the moral and political price exacted on the men and women who approved and carried out the missions. Bergman has gained the exceedingly rare cooperation of many current and former members of the Israeli government, including Prime Ministers Shimon Peres, Ehud Barak, Ariel Sharon, and Benjamin Netanyahu, as well as high-level figures in the country's military and intelligence services: the IDF (Israel Defense Forces), the Mossad (the world's most feared intelligence agency), Caesarea (a "Mossad within the Mossad" that carries out attacks on the highest-value targets), and the Shin Bet (an internal security service that implemented the largest targeted assassination campaign ever, in order to stop what had once appeared to be unstoppable: suicide terrorism). Including never-before-reported, behind-the-curtain accounts of key operations, and based on hundreds of on-the-record interviews and thousands of files to which Bergman has gotten exclusive access over his decades of reporting, Rise and Kill First brings us deep into the heart of Israel's most secret activities. Bergman traces, from statehood to the present, the gripping events and thorny ethical questions underlying Israel's targeted killing campaign, which has shaped the Israeli nation, the Middle East, and the entire world. "A remarkable feat of fearless and responsible reporting . . . important, timely, and informative."—John le Carré Edition of rare churchwardens' accounts offers rich evidence for East

Anglian life in the Civil War. The rare set of churchwardens' accounts edited here offers a detailed view of life in an East Anglian village during the English civil wars. Their survival is unusual in a time which is considered by many to have experienced a wide-spread breakdown of local government, and they reveal many aspects of early modern life: of particular interest are the costs of war in a village which committed both men and money to Parliament's cause. The introduction recreates the demographic, economic and social structure of early modern Cratfield, and the volume is completed with a number of appendices, including short biographies of those named in the accounts. LYNN A. BOTELHO is in the Department of History at the Indiana University of Pennsylvania. The first novel in Arne Dahl's gripping Intercrime series—considered one of Sweden's best—Misterioso is a piercingly dark and absorbing detective thriller. After dismantling a bloody hostage situation at a bank outside Stockholm, Detective Paul Hjelm is dropped into an elite task-force assembled to find an elusive murderer with a sophisticated method. The killer breaks into the homes of Sweden's high-profile business leaders at night, places two bullets in their heads with deadly precision, then removes the bullets from the walls—a ritual enacted to a rare bootleg recording of Thelonious Monk's jazz classic "Misterioso." As Hjelm and the rest of the team follow one lead after another, they must navigate the murky underworld of the Russian mafia, penetrate the secret society of Sweden's wealthiest denizens, and battle one of the country's most persistent ills: a deep-rooted xenophobia that affects both the police and the perpetrator. PowerPoint was the first presentation software designed for Macintosh and Windows, received the first venture capital investment ever made by Apple, then became the first significant acquisition ever made by Microsoft, who set up a new Graphics Business Unit in Silicon Valley to develop it further. Now, twenty-five years later, PowerPoint is installed on more than one billion computers, worldwide. In this book, Robert Gaskins (who invented the idea, managed its design and development, and then headed the new Microsoft group) tells the story of its first years, recounting the perils and disasters narrowly evaded as a startup, dissecting the complexities of being the first distant development group in Microsoft, and explaining decisions and insights that enabled PowerPoint to become a lasting success well beyond its original business uses. Still bearing scars from the gulag, a freed POW traverses Russia to arrive at the Polish town of Lodz. In its massive

Hotel Savoy, he meets a surreal cast of characters, each eagerly awaiting the return from America of a rich man named Bloomfield. Like Europe itself in 1932, the hotel is the stage upon which characters follow fate to its tragic destination. Imprisoned in the Gulags for a crime he did not commit, Benya Golden joins a penal battalion made up of Cossacks and convicts to fight the Nazis. He enrolls in the Russian cavalry, and on a hot summer day in July 1942, he and his band of brothers are sent on a suicide mission behind enemy lines—but is there a traitor among them? The only thing Benya can truly trust is his horse, Silver Socks, and that he will find no mercy in onslaught of Hitler's troops as they push East. Spanning ten epic days, between Benya's war on the grasslands of southern Russia and Stalin's intrigues in the Kremlin, between Benya's intense affair with an Italian nurse and a romance between Stalin's daughter and a war correspondent, this is a sweeping story of passion, bravery, and survival—where betrayal is a constant companion, death just a heartbeat away, and love, however fleeting, offers a glimmer of redemption.
