Developments in Information & Knowledge Management for Business Applications Jan 19 2020 This book discusses incentives for information management, usage of information for existing practices to become more efficient, the acceleration of executive learning, and an evaluation of the information management impact on an organization. In today's COVID-influenced volatile world, companies face a variety of challenges. And the most crucial of them are high levels of uncertainty and risk. Therefore, companies are constantly under pressure to provide sustainable solutions. Accordingly, previously gathered knowledge and information can be extremely helpful for this purpose. Hence, this fourth book of our subseries continues to accentuate on different approaches, which point to the importance of continuous progress in structural management for sustainable growth. It highlights the permanent gain and usage of information. We would be pleased if the book can stimulate further research on this subject matter.

Ford Fuel Injection & Electronic Engine Control Oct 16 2019 The authoritative, hands-on book for Ford Engine Control Systems. Author Charles Probst worked directly with Ford engineers, trainers and technicians to bring you expert advice and "inside information" on the operation of Ford systems. His comprehensive troubleshooting, service procedures and tips will help you master your Ford's engine control system. For the best high-performance tuning advice for street and off-road, Probst went straight to the experts--Ford's own Special Vehicle Operations. He also includes recommendations from some of the best-known Ford tuners and parts suppliers. You'll learn the hot set-up for your car or truck: what really works, what doesn't, and how to stay emissions-legal. No other book gives you this much detailed, proven information. With 330 pages, including all model-specific wiring diagrams, trouble codes, test specifications, and hundreds of photos and illustrations, this is the only choice for Ford enthusiasts, professional repair technicians and high-performance tuners who really want to understand and get the most out of their Ford.
