In general, farmers in the EU are not a low-income or poor sector of society and much of the present CAP income support goes to those that are relatively well-off. This book, the 3rd edition to address these issues, has been updated and expanded to include: updated coverage of statistics and references; the major changes in methodology of income measurement flowing from the 1995 revision of the European System of Accounts; a critical examination of wealth and balance sheets for the agricultural industry as currently calculated; incorporation of material from Japan and countries in Central and Eastern Europe that are candidates for EU membership.
