He retired from performing professionally around 1930 and began a prolific and successful career writing books on magic. As he became older and lost his eyesight, the magician Frederick Braué began co-writing several books with Hugard on the art of card magic. Braue was a journalist and semi-professional magician who specialized in card tricks and was viewed as a master at this skill. In their book "The Royal Road to Card Magic" they bring their considerable knowledge and experience to teach beginners how to master an impressive number of famous and difficult card tricks. ALL YOU NEED TO KNOW "Step-by-step instructions show how to perform a variety of illusions and entertaining magic tricks"--Provided by publisher. To me, a card trick or a brain teaser is not just a way to impress and elude others, or a way to show off by figuring out a trick I've been shown; it's much more profound than that. To me, they are a way of opening up an entirely different way of thinking. Tricks helped me improve my ability to think outside the box, not limit myself while searching for solutions, and trained me in using every bit of information given to me in order to understand how things work, not only for tricks but on a day to day basis with life. Tricks are also a good way to prove to others that things they thought impossible are quite plausible. A simple card trick can leave even the most skeptical of spectators wondering how it happened and not only that; they might even beg you for

the secret. Even more importantly, to me, a trick is the perfect way to put a smile on someone's face. This book contains all the material I have ever learned and performed. Each trick is explained in a step-by-step procedure making it easier to follow, and the requirements for each trick are explained along the way. Welcome to the wonderful world of Magic the Gathering! So sit back and relax because you are about to take a journey into Magic the Gathering! At its most basic, Magic is actually very simple. You and a friend(s) are Planeswalkers, powerful beings who can traverse different planes of existence and do battle by summoning powerful spells. The first player whose life total reaches zero loses. To summon these spells, you rely on what are called land cards, or mana. These lands and their coordinating colors represent the very basic building blocks of Magic, and there are five types of land cards, each representing a natural landscape that dictates the flavor of that particular spell.
