Meanwhile, the Surfer tackles a deadly life-form and deals with the madness of Dynamo City! But when Thanos returns from his quest, glove on hand and hell-bent for revenge, do the Surfer, Galactus and Drax the Destroyer stand a chance? And whose side will Mephisto be on? COLLECTING: VOL. 6: SILVER SURFER (1987) 39-50, ANNUAL 3; THANOS QUEST 1-2; MATERIAL FROM MARVEL COMICS PRESENTS (1988) 50 After spending two years in bed with Lyme disease, Steven Kotler had lost everything: his health, his job, his girl, and, he was beginning to suspect, his mind. Kotler, not a religious man, suddenly found himself drawn to the sport of surfing as if it were the cornerstone of a new faith. Why, he wondered, when there was nothing left to believe in, could he begin to believe in something as unlikely as surfing? What was belief

anyway? How did it work in the body, the brain, our culture, and human history? With the help of everyone from rebel surfers to rocket scientists, Kotler undertakes a three-year globetrotting quest. The results are a startling mix of big waves and bigger ideas: a surfer's journey into the biological underpinnings of belief itself. "Roth Family Foundation music in America imprint"--First printed page. If only life could be like surfing! Winner of the 2017 Nautilus Award in the Religion/Spirituality of Western Thought category A bestselling author and rabbi's

profoundly affecting exploration of the meaning and purpose of the soul, inspired by the famous correspondence between Albert Einstein and a grieving rabbi. “A human being is part of the whole, called by us ‘Universe,’ a part limited in time and space. He experiences himself, his thoughts, and feelings as something separate from the rest—a kind of optical delusion of his consciousness...” —Albert Einstein

When Rabbi Naomi Levy came across this poignant letter by Einstein it shook her to her core. His words perfectly captured what she has come to believe about the human condition: That we are intimately connected, and that we are blind to this truth. Levy wondered what had elicited such spiritual wisdom from a man of science? Thus began a three-year search into the mystery of Einstein’s letter, and into the mystery of the human soul. What emerges is an inspiring, deeply affecting book for people of all faiths filled with universal truths that will help us reclaim our own souls and glimpse the unity that has been evading us. We all long to see more expansively, to live up to our gifts, to understand why we are here. Levy leads us on a breathtaking journey full of wisdom, empathy and humor, challenging us to wake up and heed the voice calling from within—a voice beckoning us to become who we were born be. In this meditative memoir—a compelling fusion of *Barbarian Days* and the journals of Thomas Merton—the author of *Saltwater Buddha* reflects on his "failing toward

enlightenment," his continued search to find meaning and a greater understanding of grace in the world's oceans as well as everyday life. Born to a family of seekers, Jaimal Yogis left home at sixteen to surf in Hawaii and join a monastery—an adventure he chronicled in *Saltwater Buddha*. Now, in his early twenties, his heart is broken and he's lost his way. Hitting the road again, he lands in a monastery in Dharamsala, where he meets Sonam, a displaced Tibetan. To help his friend, Jaimal makes a cockamamie attempt to reunite him with his family in Tibet by way of America. Though he does not succeed, witnessing Sonam's spirit in the face of failure offers Jaimal a deeper understanding of faith. When the two friends part, he cannot fathom the unlikely circumstances that will reunite them. *All Our Waves Are Water* follows Jaimal's trek from the Himalayas to Indonesia; to a Franciscan Friary in New York City to the dusty streets of Jerusalem; and finally to San Francisco's Ocean Beach. Along his journey, Jaimal prays and surfs; mourning a lost love and seeking something that keeps eluding him. The poet Rumi wrote, "We are not a drop in the ocean. We are the ocean in a drop." *All Our Waves Are Water* is Jaimal's "attempt to understand the ocean in a drop, to find that one moon shining in the water everywhere"—to find the mystery that unites us. What makes for a surfing life? With a blaze of groundbreaking performances and a swag of titles claimed from all over the world to his name, Australian world

champion surfer Nat Young might know. His seventieth birthday inspired some reflection on exactly that, and on the waves and characters that have marked his remarkable life – Miki Dora and Midget Farrelly to name a few. But surfing for Nat Young – and so many like-minded surfers – has never been about winning, never been about the sport. It’s a calling, an endless quest, a philosophy, a religion. Most of all, surfing is a way of life that has underpinned his other identities as board shaper, film producer, writer, raconteur, conservationist, activist, pilot, husband, father. Candid and wryly observed, *Church of the Open Sky* explores what it means to be a surfer, with a collection of true stories of Nat’s surfing life – and the friends, foes and heroes he’s met along the way. In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Saltwater Buddha: A Surfer's Quest to Find Zen on the Sea." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all. *Relative Truth*, *Ultimate Truth* is a clear and remarkably practical presentation of a core Buddhist teaching on the nature of reality. Geshe Tashi Tsering provides readers with

an excellent opportunity to enhance not only their knowledge of Buddhism, but also a powerful means to profoundly enhance their view of the world. The Buddhist teaching of the "two truths" is the gateway to understanding the often-misunderstood philosophy of emptiness. This volume is an excellent source of support for anyone interested in cultivating a more holistic and transformative understanding of the world around them and ultimately of their own consciousness. The highly entertaining true story of a bloke who decides to make his favourite pastime (surfing) his profession for a year.

CORRECTION: Regarding the book, *The Battle for Paradise* by Jeremy Evans, the following correction has been made on page 163 in paragraph three (3) to wit: "Weston once worked in concert with government officials in a pre-planned sting operation, complete with marked bills: Weston, whose role in the operation involved paying a bribe to the Golfito mayor for a concession and then documenting the bribe as a way to expose the mayor as a corrupt government official, was a former cocaine dealer, according to Dan, and someone who illegally acquired possession of his sawmill property." Pavones, a town located on the southern tip of Costa Rica, is a haven for surfers, expatriates, and fishermen seeking a place to start over. Located on the Golfo Dulce (Sweet Gulf), a marine sanctuary and one of the few tropical fjords in the world, Pavones is home to a legendary surf break and a cottage fishing industry. In 2004 a

multinational company received approval to install the world's first yellowfin tuna farm near the mouth of the Golfo Dulce. The tuna farm as planned would pollute the area, endanger sea turtles, affect the existing fish population, and threaten the world-class wave. A lawsuit was filed just in time, and the project was successfully stalled. Thus began an unlikely alliance of local surfers, fishermen, and global environmental groups to save a wave and one of the most biodiverse places on the planet. In *The Battle for Paradise*, Jeremy Evans travels to Pavones to uncover the story of how this ragtag group stood up to a multinational company and how a shadowy figure from the town's violent past became an unlikely hero. In this harrowing but ultimately inspiring story, Evans focuses in turn on a colorful cast of characters with an unyielding love for the ocean and surfing, a company's unscrupulous efforts to expand profits, and a government that nearly sold out the perfect wave. A definitive and highly readable history of surfing and the cultural, political, economic, and environmental consequences of its evolution from a sport of Hawaiian kings and queens to a billion-dollar worldwide industry. Despite its rebellious, outlaw reputation, or perhaps because of it, surfing occupies a central place in the American – and global – imagination, embodying the tension between romantic counterculture ideals and middle-class values, between an individualistic communion with nature and a growing commitment

to commerce and technology. In examining the enduring widespread appeal of surfing in both myth and reality, *The World in the Curl* offers a fresh angle on the remarkable rise of the sport and its influence on modern life. Drawing on Peter Westwick and Peter Neushul's expertise as historians of science and technology, the environment, and the Cold War, as well as decades of experience as surfers themselves, *The World in the Curl* brings alive the colorful history of surfing by drawing readers into the forces that fueled the sport's expansion: colonialism, the military-industrial complex, globalization, capitalism, environmental engineering, and race and gender roles. In an engaging and provocative narrative history – from the spread of surfing to the United States, to the development of surf culture, to the reintroduction of women into the sport, to big wave frontiers – the authors draw an indelible portrait of surfing and surfers as actors on the global stage. Instagram sensation Clark Little shares his most remarkable photographs from inside the breaking wave, with a foreword by world surfing champion Kelly Slater. “One of the world’s most amazing water photographers . . . Now we get to experience up-close these moments of bliss.”—Jack Johnson, musician and environmentalist

Surfer and photographer Clark Little creates deceptively peaceful pictures of waves by placing himself under the deadly lip as it is about to hit the sand. "Clark's view" is a rare and dangerous perspective of waves from the inside

out. Thanks to his uncanny ability to get the perfect shot--and live to share it--Little has garnered a devout audience, been the subject of award-winning documentaries, and become one of the world's most recognizable wave photographers. Clark Little: The Art of Waves compiles over 150 of his images, including crystalline breaking waves, the diverse marine life of Hawaii, and mind-blowing aerial photography. This collection features his most beloved pictures, as well as work that has never been published in book form, with Little's stories and insights throughout. Journalist Jamie Brisick contributes essays on how Clark gets the shot, how waves are created, swimming with sharks, and more. With a foreword by eleven-time world surfing champion Kelly Slater and an afterword by the author on his photographic practice and technique, Clark Little: The Art of Waves offers a rare view of the wave for us to enjoy from the safety of land. SHARK! Few words have such heart-stopping power--particularly among surfers. When 23-year-old Jake Ryder sees his best friend, Cody, wash up on a Southern California beach after being killed by a great white shark, he can't let it go. Jake's quest to find the last surfer to see Cody alive leads him to the Nomads, a shadowy tribe that hits the waves only after the sun sets. Led by Tristan Pierce, the first of a new breed of vampires, the Nomads are at the center of a growing number of dead and missing surfers. Also on the bloody trail is Lani Marley, an

undercover FBI agent who befriends Jake to infiltrate the Nomads but soon falls for Tristan... Californians Sanders and Sexton assemble leading voices and specialists both from within and without California for engagement with California's influential culture. Leading theologians and cultural critics are included alongside leading specialists in film studies and cultural critique, theological anthropology, missiology, sociology and history. Exploring California as a theological place, this book renders critical engagement with significant Californian religious and theological phenomena and the inherent theological impulses within major Californian cultural icons. For world-class surfer Bear Woznick, the ocean has always been the center of his universe. He's spent his entire life with it; riding its waves, learning from it, loving it. The ocean also nourishes the soul as Bear shows us on his surfboard. In DEEP IN THE WAVE, readers ride along with Woznick through the calmest of tides and most turbulent waves. Woznick's portrayal of the beauty and power of the ocean is truly inspiring and showcases the profound meaning surfing has had on his life. From the way a surfboard is painstakingly crafted, to the faith and patience that is required to ride a monster wave, Woznick weaves his relationship to surfing with his relationship to God, relating how the two are often one in the same. Instead of standing on the shore with our toes in the surf, Woznick takes us on the board--to the deep water--to watch and wait--and, if

need be, to paddle hard to survive. When Richard “Frosty” Hesson was first approached by a young Jay Moriarty in 1990, the skinny kid with a sparkle in his eye only wanted one thing from the icon: his help in becoming a better surfer. Hesson, one of the first to conquer the huge waves off northern California known as Mavericks, recognized that the kid “had a vision.” Jay quickly demonstrated a resolve that reminded Frosty of his younger self, pursuing his goal with a seriousness far beyond his years. His attitude and work ethic earned Frosty’s respect and, eventually, his friendship. Making Mavericks is the inspiring story of their father-son bond and of the challenges that made each of them who they were—surf legends, and the subject of the upcoming film Chasing Mavericks. In Making Mavericks, Frosty talks about his turbulent youth spent under difficult circumstances, with parents who tried to find a positive way to handle a child with a passion for water and a disregard for his own safety. Throughout his life he developed principles to live by, principles that would become the core tenets of his teaching philosophy. Most significantly, Frosty talks about how one of his best students, Jay Moriarty, used his philosophy to become a surfing phenomenon, and whose life inspired the phrase, “Live like Jay.” Affecting and poignant, Making Mavericks is a celebration of Hesson’s determination to live with joy and purpose, and his desire to help others do the same. one of the world's most coveted surf spots. Norm "Shifty" Shifren risks missing his own bar mitzvah to take his first shaky ride at the mecca of surfdom -- Malibu Beach. An assimilated Jew who barely acknowledges his spiritual roots, Shifren pursues his dream of becoming a big-wave surfer, lifeguard and triathlete. Shifren's circuitous journey evolves into a spiritual quest that takes him from the pristine waves of Hawaii and Mexico, to an intermarriage in Germany and soldier duty in Israel, and finally, to a small orthodox shtetl in Israel, where he learns the mysteries of the Jewish ancients...His true-life saga is one of new-found Jewish consciousness and eye-opening self-revelation. Ultimately drawn to the insular, yet joyous ultra orthodox Lubavitcher Chassidim, Rabbi Nachum Shifren's life comes full circle as he finds G-d not in the synagogue, but in the majesty of Jewish mysticism and the vast power of the ocean. In the 1970s, a decade before bumper stickers and T-shirts bearing the phrase Eddie Would Go began popping up all over the Hawaiian islands and throughout the surfing world, Eddie Aikau was proving what it meant to be a "waterman." As a fearless and gifted surfer, he rode the biggest waves in the world; as the first and most famous Waimea Bay lifeguard on the North Shore, he saved hundreds of lives from its treacherous waters; and as a proud Hawaiian, he sacrificed his life to save the crew aboard the voyaging canoe Hokule'a. Eddie Would Go is the compelling story of Eddie

Aikau's legendary life and legacy, a pipeline into the exhilarating world of surfing, and an important chronicle of the Hawaiian Renaissance and the emergence of modern Hawaii. Duane's account of a year spent surfing in Santa Cruz, California. Surfing may seem to have sprung from the waves of California in the 1960s, Beach Boys music playing somewhere on shore. In truth, though, as detailed in this colorful and captivating book, surfing is believed to have been around for centuries, brought to Hawaii by Polynesian settlers who arrived on the islands' lively shores sometime around the fourth century CE. With accounts of surfing's early days as well as in-depth descriptions of various surfboard types and accessories, this useful guide also provides step-by-step pointers on how to learn the ups and downs and ins and outs of surfing. In this wry and exhilarating coming-of-age story, a prizewinning poet poignantly looks back at his adolescent surfing years. As a disenchanting, unemployed English professor, Thad Ziolkowski decides one day to sneak away from his temp job in Manhattan and catch a wave off a dingy Queens shoreline. In the meager cold waves, he contemplates how he could have possibly become a semidepressed, chain-smoking, aimless man when, for a few shining years of his boyhood, he was invincible. His lapsed love affair with the ocean begins amid the late-sixties counterculture in coastal Florida. After his parents' divorce, nine-year-old Thad escapes from his difficult family—notably a new brooding and explosive

stepfather—by heading for the thrilling, uncharted waters of the local beach. In the embrace of the surf, he is able to stay offshore for years, until his life is upended once again, this time by a double tragedy that deposits him at a crossroads between a life in the waves and a life on land. Lyrical and disarmingly funny, *On a Wave* is a glorious portrait of youth that reminds readers of Tobias Wolff's *This Boy's Life* and Frank Conroy's *Stop-Time*. "A sharp, self-conscious portrait of the artist as a young grommet." —The New Yorker

Barbarian Days is William Finnegan's memoir of an obsession, a complex enchantment. Surfing only looks like a sport. To initiates, it is something else: a beautiful addiction, a demanding course of study, a morally dangerous pastime, a way of life. Raised in California and Hawaii, Finnegan started surfing as a child. He has chased waves all over the world, wandering for years through the South Pacific, Australia, Asia, Africa. A bookish boy, and then an excessively adventurous young man, he went on to become a distinguished writer and war reporter. *Barbarian Days* takes us deep into unfamiliar worlds, some of them right under our noses—off the coasts of New York and San Francisco. It immerses the reader in the edgy camaraderie of close male friendships forged in challenging waves. Finnegan shares stories of life in a whites-only gang in a tough school in Honolulu. He shows us a world turned upside down for kids and adults alike by the social upheavals of the 1960s. He details the intricacies of famous waves and his own apprenticeships to them. Youthful folly—he drops LSD while riding huge Honolua Bay, on Maui—is served up with rueful humor.

As Finnegans' travels take him ever farther afield, he discovers the picturesque simplicity of a Samoan fishing village, dissects the sexual politics of Tongan interactions with Americans and Japanese, and navigates the Indonesian black market while nearly succumbing to malaria. Throughout, he surfs, carrying readers with him on rides of harrowing, unprecedented lucidity. *Barbarian Days* is an old-school adventure story, an intellectual autobiography, a social history, a literary road movie, and an extraordinary exploration of the gradual mastering of an exacting, little-understood art. Quit your job, pack your boards, and surf your way down the California coast.... Sound like a daydream? *The California Surf Project* is the fully illustrated travel diary of two surfers who took this trip of a lifetime. Chris Burkard, a talented photographer, and Eric Soderquist, a professional surfer, cajoled their Volkswagen bus along Highway 1 from the Oregon border to the Tijuana Sloughs and discovered everything the Golden State's legendary coastline has to offer. Relive their incredible adventure of surfing perfect waves, sharing campfires with total strangers, and keeping the bus running with duct tape and prayers in more than 200 gorgeous photographs, soulful text, and a professionally produced thirty-minute DVD. **NEW YORK TIMES BESTSELLER** • Surfing icon Laird Hamilton offers inspiration to anyone who wants to elevate their ordinary, landlocked lives to do extraordinary things. "When Laird

Hamilton surfs, you must watch. When he speaks, I listen. And when he writes a book, I'm damn sure gonna read it. Twice.”—Eddie Vedder, Grammy Award-winning lead vocalist of Pearl Jam Millions of us increasingly seek happiness in fads and self-help books, reaching upward every day toward some enlightened state that we wish to attain. Laird Hamilton is more intent on looking inward and appreciating the brilliant creatures we already are. In *Liferider*, Laird uses five key pillars—Death & Fear, Heart, Body, Soul, and Everything Is Connected—to illustrate his unique worldview and life practices. Praise for *Liferider* “Laird is a hero, if you want him to be. That's up to your perception. He challenges himself, and he challenges those around him. He shows us that the deeper we puncture into life, the more vibrant the colors get. These thoughtful mediations offer a unique window — illuminating and inspiring — into one of America's great innovators.”—Rory Kennedy, Documentary Filmmaker With grit, poetry, and humor, Peter Heller, acclaimed author of *The River* and *The Whale Warriors* recounts his remarkable journey of discovery—of surfing, an entirely new challenge; of the ocean’s beauty and power; of the strange surf subculture; of love; and, most of all, of how to seek adventure while crafting a meaningful life. Author of the New York Times bestselling novel *The Dog Stars* Winner of the National Outdoor Book Award for Literature Having resolved to master a big-hollow wave—that is, to go from kook (surfese for beginner) to shredder—in a single year, Heller travels from Southern California down the coast of Mexico in the company of his girlfriend and the eccentric surfers they meet. Exuberant and fearless, Heller explores the technique and science of surfing the secrets of its culture, and the environmental ravages to the stunning coastline he visits. As Heller plumbs the working of his own heart and finds joy in both love and surfing, he affords readers vivid insight into this fascinating world, with all of its perils and pleasures, its absurdity and wonder. Exhilarating, entertaining, and moving, *Kook* is a love story between a man and his surfboard, a man and his girlfriend, a not-so-old man and the sea. With a fresh voice and surf-saturated

daydreams, this author celebrates the joys of traveling around the world to feed her surfing addiction. From legendary writer Paul Theroux comes an atmospheric novel following a big-wave surfer as he confronts aging, privilege, mortality, and whose lives we choose to remember. One of NPR's Best Books of 2016 and a Hugo, Nebula, John W. Campbell, and Locus Award finalist for Best Novella Professor Vellitt Boe teaches at the prestigious Ulthar Women's College. When one of her most gifted students elopes with a dreamer from the waking world, Vellitt must retrieve her. "Kij Johnson's haunting novella *The Dream-Quest of Vellitt Boe* is both a commentary on a classic H.P. Lovecraft tale and a profound reflection on a woman's life. Vellitt's quest to find a former student who may be the only person who can save her community takes her through a world governed by a seemingly arbitrary dream logic in which she occasionally glimpses an underlying but mysterious order, a world ruled by capricious gods and populated by the creatures of dreams and nightmares. Those familiar with Lovecraft's work will travel through a fantasy landscape infused with Lovecraftian images viewed from another perspective, but even readers unfamiliar with his work will be enthralled by Vellitt's quest. A remarkable accomplishment that repays rereading." —Pamela Sargent, winner of the Nebula Award At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Draws on decades of experience and the popular team-taught courses at the University of California at Santa Barbara to trace the cultural, political, economic and environmental aspects of surfing while evaluating the diverse range of influences that have rendered the sport a billion-dollar worldwide industry. In 1996, Allan Weisbecker sold his home and his possessions, loaded his dog and surfboards into his truck, and set off in search of his long-time surfing companion, Patrick, who had vanished into the depths of Central America. In this rollicking memoir of his quest from Mexico to Costa Rica to unravel the circumstances of Patrick's disappearance, Weisbecker intimately describes the people he befriended, the bandits he evaded, the waves he caught and lost en route to finding his friend. *In Search of Captain Zero* is, according to *Outside* magazine, "A subtly affecting tale of friendship and duty. [It] deserves a spot on the microbus dashboard as a hell of a cautionary tale about finding paradise and smoking it away." *In Search of Captain Zero: A Surfer's Road Trip Beyond the End of the Road* is a *Booksense* 76 Top Ten selection for September/October. An epic adventure full of incredible characters, death-defying athletic achievement, and bleeding edge science, *The Fear Project* began with one question: how can we overcome our fears to reach our full potential? Who among us has not been paralyzed by fear? In *The Fear Project*, award-winning journalist and surfer Jaimal Yogis sets out to better understand fear-

why does it so often dominate our lives, what makes it tick, and is there even a way to use it to our advantage? In the process, he plunges readers into great white shark-infested waters, brings them along to surf 40+ foot waves in the dead of winter, and gives them access to some of the world's best neuroscience labs, psychologists, and extreme athletes. In this entertaining, often laugh-out-loud narrative, Yogis also treats himself like a guinea pig for all of his research, pushing his own fears repeatedly to the limits-in his sport, in his life, and in love. Ultimately, Yogis shares with his readers the best strategies to emerge triumphant from even the most paralyzing of fears. The Fear Project gives you insight into: - How fear evolved in the human brain - How to tell the difference between "good fear" and "bad fear" - How to use the latest neuroscience to transform fear memories - Why fear spreads between us and how to counteract fearful "group think" - How to turn fear into a performance enhancer - athletically and at work In pursuing this terrifying-and often thrilling-journey with Yogis, we learn how to move through fear and unlock a sense of renewed possibility and a more rewarding life.
