[The Brighton Run](#) Jul 21 2020 Every year on the first Sunday in November four hundred pre-1905 cars gather in Hyde Park for the annual Brighton Run, at one time unfortunately known as the Old Crocks Park. It is one of Britain's greatest annual motoring spectacles. Organised by the Royal Automobile Club with the co-operation of the Veteran Car Club, this event is reputedly watched by a million people over the 52 mile (84km) route. Its origins go back to 1896 when the law changed and the light locomotive was at last allowed to travel up to 12 mph (19km/h) and did not have to be preceded by a man walking in front. To celebrate this change in the law the Motor Car Club ran 'The Emancipation Run' from London to Brighton. Revived in 1927, veteran cars have been making this annual pilgrimage ever since - war years and 1947 excepted.

How to Build Affordable Hot Rods Dec 06 2021 Learn how to build an affordable hot rod following the advice of the masters! In *How to Build Affordable Hot Rods*, author and lifelong hot rod aficionado Tony Thacker takes you through the process of building a hot rod on a budget. Drawing on his own extensive experience of both buying and building rods, Thacker explores the good, the bad, and the ugly. The good was setting a land speed record at Bonneville, the bad was buying a rod from which the previous owner had "swapped out" the good engine, and the ugly--well, let's just not go there. *How to Build Affordable Hot Rods* includes extensive how-to sections that cover step-by-step chassis builds for Model A, 1932, and 1936 Fords, including front- and rear-end setups. The in-depth chassis builds are complimented with sections on powertrain choices, bodywork and roof chops, wheels and tires, and wiring and paint. Also included are chapters on interiors and the all-important details that individualize any project to ensure that it stands out from the rest. When Henry Ford introduced his beloved Model T, he unwittingly gave the average person the means to go racing. Prior to the T, racing was mostly a sport of the rich, but that changed with the Model T. Stripped of fenders and hopped up with speed parts, T speedsters ruled, and it wasn't long before enthusiasm on the track translated to the street and the term hot rod entered the vernacular. Of course, it didn't need to be a Ford (and still doesn't), but the easiest and therefore cheapest route to Hot Rod Boulevard is down the Ford road. The journey accelerated after World War II, as hot rodding boomed with the growth of speed shops, car shows, drag racing, talented and trained GIs returning home, and the launch of Hot Rod magazine to spread the gospel far and wide. More than 100 years after the original Model T, hot rodding remains alive and well in the Australasia, Europe, and (of course) its birthplace the US.

Learn from the best and get started building your affordable hot rod today!
