Internet Comedy Television Series, 1997-2015 May 21

2020 Created around the world and available only on the web, Internet "television" series are independently produced, mostly low budget shows that often feature talented but unknown performers. Typically financed through crowd-funding, they are filmed with borrowed equipment and volunteer casts and crews, and viewers find them through word of mouth or by chance. The fourth in a series covering Internet TV, this book takes a comprehensive look at 1,121 comedy series produced exclusively for online audiences. Alphabetical entries provide websites, dates, casts, credits, episode lists and storylines.

Our Ecstatic Days Aug 24 2020 Our Ecstatic Days begins as the memoir of a young mother desperate to forget a single act, committed out of love and fear, that has changed forever the world around her. In the waning days of summer, a lake appears, almost overnight, in the middle of Los Angeles. In an instant of either madness or revelation, convinced that the lake means to take her small son from her, Kristin becomes determined to stop it. Three thousand miles away, on the eve of a momentous event, another young woman -- with a bond to Kristin that she can't even know -- meets a mysterious figure who announces in the dark, "The Age of Chaos is here." Against a forbidden landscape that shimmers with destiny and yearning, Our Ecstatic Days finally takes place on the terrain of a defiant heart. Human connections multiply into astonishing twists of fate -- by which the wrongs of an obsolete century may be set right -- and parallel lives spin faster toward the possibility that they will once again unite, electrifying a vision of the century to come.

The Child Feb 22 2023 The Child: An Encyclopedic Companion offers both parents and professionals access to the best scholarship from all areas of child studies in a remarkable one-volume reference. Bringing together contemporary research on children and childhood from pediatrics, child psychology, childhood studies, education, sociology, history, law, anthropology, and other related areas, The Child contains more than 500 articles—all written by experts in their fields and overseen by a panel of distinguished editors led by anthropologist Richard A. Shweder. Each entry provides a concise and accessible synopsis of the topic at hand. For example, the entry “Adoption” begins with a general definition, followed by a detailed look at adoption in different cultures and at different times, a summary of the associated mental and developmental issues that can arise, and an overview of applicable legal and public policy. While presenting certain universal facts about children’s development from birth through adolescence, the entries also address the many worlds of childhood both within the United States and around the globe. They consider the ways that in which race, ethnicity, gender, socioeconomic status, and cultural traditions of child rearing can affect children’s experiences

of physical and mental health, education, and family. Alongside the topical entries, The Child includes more than forty "Imagining Each Other" essays, which focus on the particular experiences of children in different cultures. In "Work before Play for Yucatec Maya Children," for example, readers learn of the work responsibilities of some modern-day Mexican children, while in "A Hindu Brahman Boy Is Born Again," they witness a coming-of-age ritual in contemporary India. Compiled by some of the most distinguished child development researchers in the world, The Child will broaden the current scope of knowledge on children and childhood. It is an unparalleled resource for parents, social workers, researchers, educators, and others who work with children.
