[The Chosen Seed](#) Nov 22 2022 His nephew has been kidnapped and, as he works desperately to save Luke, Detective Inspector Cass Jones has been framed for murder. He's on the run, being hunted by former colleagues, and is unwelcome wherever he goes ... until he gets help from a very unexpected figure from his past. Detectives Hask and Ramsey are on a different case - searching for the killer behind the lethal Strain II virus currently sweeping its way through London ... a search which throws up an unexpected clue that suggests Cass might be innocent of murder after all. But when they're ordered not to investigate further, they realise the mystery behind the murder is far greater than they thought. Somehow it's linked to Mr Bright, and to the Network which manipulates everyone from the shadows. A rift is growing between these rival factions as Strain II takes a firmer hold on the city, and as the Interventionists warn of a final battle which will bring them all together - or, once and for all, tear everything apart. Cass Jones is going up against The Bank and its sinister employees one last time. He needs every ally he can get, and this time he means to find answers - even if he has to uncover the true history of humanity to do it. And the more he learns, the more everything hinges on finding Luke ... Set in a future that's close enough to touch, Sarah Pinborough's series combines the streetwise grime of a George Pelecanos mystery with the near-future dystopian setting of Richard Morgan.

For this book, he interviewed showmen and performers, collected carnival memorabilia, researched published accounts of sideshows and their lore, and even performed some classic sideshow feats, such as eating fire and lying on a bed of nails as a cinderblock was broken on his chest. The result of these varied efforts, *Secrets of the Sideshows* tells the captivating story of the magic, tricks - real or illusory - and performers of the world's midway shows."--BOOK JACKET.

Lying Dog-Faced Pony Socialists Jun 05 2021 "No, you haven't. You're a lying dog-faced pony soldier," the Vice President snapped at then-twenty-one-year-old Madison Moore. In a blend of personal narrative and political analysis, Moore shares her personal experience with politics, and highlights the humanitarian disasters socialism produced around the world—and could produce here. Throughout this book, Moore argues for the abandonment of socialism in favor of free market capitalism. Drawing on historical and moral origins, Moore demonstrates how socialism has led only to disastrous outcomes in practice, and how capitalism has fostered human prosperity. In this book, Moore hopes to persuade young Americans that only capitalism—not socialism—can equip them with the necessary tools to face the challenges of the 21st century.

The Curious Incident of the Dog in the Night-Time Oct 09 2021 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of

narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

The Quotable Joe Jul 18 2022 Former vice president Joe Biden has said many things throughout his career where he has put his foot in his mouth, flat-out lied or flip-flopped on his votes, made up false stories, plagiarized, and said racist comments. Things have not changed for "Sleepy Joe" since he decided to run for president in 2020. During his run on the 2020 campaign trail, he's told people at campaign rallies to "vote for someone else" and has called them "lying, dog-faced pony soldiers." Throughout this book, you can expect to find some of Biden's most off-the-wall statements that make him the most embarrassing candidate to ever run for president.

The Art of D*Face Jun 17 2022 D*Face has been a leading figure in urban art for well over a decade. Pistis Sophia Nov 17 2019 In these days of the "higher criticism," with its merciless analysis of original Scripture, much light would doubtless be thrown on the New Testament by an unprejudiced study of Gnosticism. This philosophy, which reached a flourishing maturity in the second century of the Christian era, but became virtually extinct in the sixth, taught that all natures — intellectual, moral, spiritual, and material—are successive emanations from Deity. Its professors claimed to have an esoteric and philosophic knowledge of Christian doctrines, and some modern scholars assert that the Gospels are replete with allusions to the Gnostic teaching. Although it is now fashionable to dismiss the Syrian and Egyptian schools as a fantastic combination of Oriental mysticism, Greek philosophy, and Christian theology, yet it is probable that a profound interest will be awakened among reasoning Christians by "Pistis Sophia."

For the Love of a Dog Jul 26 2020 Yes, humans and canines are different species, but current research provides fascinating, irrefutable evidence that what we share with our dogs is greater than how we vary. As behaviorist and zoologist Dr. Patricia McConnell tells us in this remarkable new book about emotions in dogs and in people, more and more scientists accept the premise that dogs have rich emotional lives, exhibiting a wide range of feelings including fear, anger, surprise, sadness, and love. In *For the Love of a Dog*, McConnell suggests that one of the reasons we love dogs so much is that they express emotions in ways similar to humans. After all, who can communicate joy better than a puppy? But not all emotional expressions are obvious, and McConnell teaches both beginning dog owners and experienced dog lovers how to read the more subtle expressions hidden behind fuzzy faces and floppy ears. For those of us who deeply cherish our dogs but are sometimes baffled by their behavior, *For the Love of a Dog* will come as a revelation—a treasure trove of useful facts, informed speculation, and intriguing accounts of man's best friend at his worst and at his very best. Readers will discover how fear, anger, and happiness underlie the lives of both people and dogs and, most important, how understanding emotion in both species can improve the relationship between them. Thus McConnell introduces us to the possibility of a richer, more rewarding relationship with our dogs. While we may never be absolutely certain what our dogs are feeling, with the help of this riveting book we can understand more than we ever thought possible. Those who consider their dogs part of the family will find *For the Love of a Dog* engaging, enlightening, and utterly engrossing.

DogFace Aug 19 2022 Adorable four-color candid doggie mug shots Photographer and animal trainer Barbara O'Brien has spent years photographing aspiring canine actors, from prancing puppies to stately hounds and tenacious terriers. At first, she discarded the photos if her subject was barking, sniffing, or otherwise looking less than perfect—until she realized that those outtakes best revealed the true personality of the pup. O'Brien is a skilled and seasoned photographer, and this winsome collection shows the care she took to reveal each dog's essential character. The goofiness of the boisterous Border Collie, the decorum of the genteel Great Dane, and the curiosity of the regal Corgi—all of them are captured here in gorgeous four-color photography.

Myths of the Dog-Man Mar 02 2021 "An impressive and important cross-cultural study that has vast implications for history, religion, anthropology, folklore, and other fields. . . . Remarkably wide-ranging and extremely well-documented, it covers (among much else) the following: medieval Christian legends such as the 14th-century Ethiopian Gadla Hawaryat (Contendings of the Apostles) that had their roots in Parthian Gnosticism and Manichaeism; dog-stars (especially Sirius), dog-days, and canine psychopomps in the ancient and Hellenistic world; the cynocephalic hordes of the ancient geographers; the legend of Prester John; Visvamisra and the Svapacas ("Dog-Cookers"); the Dog Rong ("warlike barbarians") during the Xia, Shang, and Zhou periods; the nochoy ghajar (Mongolian for "Dog Country") of the Khitans; the Panju myth of the Southern Man and Yao "barbarians" from chapter 116 of the History of the Latter Han and variants in a series of later texts; and the importance of dogs in ancient Chinese burial rites. . . . Extremely well-researched and highly significant."—Victor H. Mair, Asian Folklore Studies

The Folkstories of Children Aug 07 2021 What prompts children to tell stories? What does the word "story" mean to a child at two or five years of age? The Folkstories of Children, first published in 1981, features nearly five hundred stories that were volunteered by fifty children between the ages of two and ten and transcribed word for word. The stories are organized chronologically by the age of the teller, revealing the progression of verbal competence and the gradual emergence of staging and plot organization. Many stories told by two-year-olds, for example, have only beginnings with no middle or end; the "narrative" is held together by rhyme or alliteration. After the age of three or four, the same children tell stories that feature a central character and a narrative arc. The stories also exhibit each child's growing awareness and management of his or her environment and life concerns. Some children see their stories as dialogues between teller and audience, others as monologues expressing concerns about fate and the forces of good and evil. Brian Sutton-Smith discusses the possible origins of the stories themselves: folktales, parent and teacher reading, media, required writing of stories in school, dreams, and play. The notes to each chapter draw on this context as well as folktale analysis and child development theory to consider why and how the stories take their particular forms. The Folkstories of Children provides valuable evidence and insight into the ways children actively and inventively engage language as they grow.

Underwater Dogs Dec 19 2019 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus

and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In *Underwater Dogs*, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.
