Fast Track to Cruising Apr 23 2020 Learn how to handle

a cruising sailboat in as little as seven days—even if you’ve never sailed before! Who says you have to be an experienced daysailor before you can think about cruising? Steve and Doris Colgate know that most of us don’t have that kind of time. At the Offshore Sailing School, the Colgates have helped more than 100,000 adults—three-quarters of whom started as beginning sailors or complete newcomers--take the helm of a midsize cruising sailboat. Now Fast Track to Cruising offers these proven instructional methods to all aspiring sailors with big dreams and little time. This is the very first guide that teaches sailing and cruising together, taking you from your first sail to independent cruising in one leap. You can make that leap in as little as seven days—as in the Colgates’ “Fast Track to Cruising” course—or you can get there at a more leisurely pace. Either way, no other book will take you from your first tacking or docking maneuver to a mastery of navigation and diesel engines as efficiently as this one. "America's most experienced sailing instructors present a thorough and easy to understand look at cruising. Leisure time is precious. Safety is paramount. The Colgates will help you maximize your time on the water."--Gary Jobson, ESPN's lead sailing analyst and editor at large for Cruising World and Sailing World “Doris and Steve Colgate understand that people want to reach their sailing goals as quickly as possible and they've built the excellent Fast Track program to accomplish it.”--Bernadette Bernon, former

editorial director of Cruising World magazine "Together Steve and Doris Colgate have been teaching beginners to sail for over half a century. In Fast Track to Cruising they have included every concept and procedure you need to get yourself from a want-to-be sailor to one who is knowledgeable and competent to take the helm--with confidence and a smile."--Charles Mason, Executive Editor, SAIL magazine

The Frozen Frontier Mar 23 2020 The Northwest Passage proved so elusive for so long that many sailors and explorers believed it didn't actually exist. A sea route connecting the Atlantic and Pacific Oceans through the

Arctic archipelago, it wasn't until Roald Amundsen's 1903–06 voyage that the Northwest Passage's existence was finally proved, but the transit is treacherous and entirely dependent upon the ice giving up its grip for sufficient time to allow vessels through. This is not a journey undertaken by average sailors in small private boats. But David Scott Cowper, 73, is no ordinary sailor. There are seven possible routes through the Northwest Passage, and Cowper had sailed through six of them singlehanded. This is the account of the sixth and most northerly – from ocean to ocean through the McClure Strait, this time accompanied by Jane Maufe, his crew. The account of the voyage is written by Jane and she captures Cowper's steely determination, resourcefulness in the face of adversity and humility in the wake of great achievement. Theirs is an old-fashioned relationship, where each party expects to fulfil their stereotypical roles. But Jane is no push-over - she can steer a watch, haul sails, and leap ashore slippery pontoons with heavy ropes like the best of them. As well as a captivating story of adventurous sailing it provides a fascinating insight into the relationship between two serious and dedicated sailors, alone together in some of the most isolated and forbidding desolate wastes on earth. It is a relationship built on respect and high expectations, mutual ambition and also self-sacrifice, and the book is a uniquely revealing and charming account.

Protecting Sanibel and Captiva Islands Jan 25 2023 The vibrant Sanibel and Captiva Islands are ecological marvels compared to Florida's many overbuilt barrier islands. Development began with the construction of the Sanibel Island Lighthouse in 1884, when only the lighthouse keeper and assistant and their families lived on the island. Noted conservationist Jay N. "Ding" Darling led the charge in preserving the islands' wildlife and natural beauty from the greed of real estate speculators and land developers in the 1930s. Former presidents like Harry Truman and cabinet-level executives worked alongside Sanibel and Captiva residents, setting up preserves and wildlife refuges to guard the integrity of the islands' unique natural blessings, abundant wildlife and

aquatic stores. Charles LeBuff and Betty Anholt review the evolution of the islands' conservation ethic and how it perseveres even today.

Living Sanibel Mar 03 2021 *Living Sanibel* is the only book you will need while on the islands! With more than 650 full-color photographs, illustrations and trail maps, *Living Sanibel* is the most complete identification guide to the native plants, animals and eco-attractions of Sanibel and Captiva ever compiled.

From Florida With Love: Sunrise and Stormy Skies Aug 28 2020 Here in Southwest Florida, we know a lot about the power of hurricanes. They can be terrifying, destructive demons playing havoc with human lives. We know a lot about the power of love, too. We know love can survive storms of all kinds, and these ten new stories from Southwest Florida Romance Writers prove it. Here, love comes to rich and poor, young and old. It lurks on the beach, in town, and in Florida's agricultural heartland. It might creep up on you, or it might strike with the power of a hurricane. Sometimes the hurricane arrives in disguise: a vintage motorcycle, a bucking bronco, a man's name. Be surprised, be moved, be open to what comes

after the storm. Because sometimes, out of devastation, come new beginnings. And the heart of each story is love. Don't miss the first anthology from Southwest Florida Romance Writers, *From Florida with Love: Sunsets & Happy Endings*, also from *Satin Romance*...
