But selling a company can be confusing, and one wrong step can easily cost you dearly. Warrillow completes the set with The Art of Selling Your Business. This essential guide to monetizing a business is based on interviews the author conducted on his podcast, Built to Sell Radio, with hundreds of successfully cashed-out founders. The Art of Selling Your Business answers important questions facing any founder, including— • What's your business worth? • When's the best time to sell? • How do you create a bidding war? • How can you position your company to maximize its attractiveness? • Who will pay the most for your business? • What's the secret for punching above your weight in a negotiation to sell your company? This book assembles ten scholarly examinations of the politics of representation in the groundbreaking animated children's television series Steven Universe. These analyses address a range of representational sites and subjects, including queerness, race, fandom, colonialism, and the environment, and provide an accessible foundation for further scholarship. The introduction contextualizes Steven Universe in the children's science-fiction and anime traditions and discusses the series' crucial mechanic of fusion. Subsequent chapters probe the fandom's expressions of queer identity, approach the series' queer force through the political potential of the animated body, consider the unequal privilege of different female characters, and trace the influence of anime director Kunihiko Ikuhara. Further chapters argue that Ronaldo allows satire of multiple media forms, focus on Onion as a surrealist trickster, and contemplate cross-species hybridity and consent. The final chapters concentrate on background art in connection with ecological and geological narratives, adopt a decolonial perspective on the Gems'

legacy, and interrogate how the tension between personal and cultural narratives constantly recreates memory. Instead, you're working insane hours, not making the money you had hoped, and are not fulfilled by your life as a lawyer. Ali Katz was struggling with the same issues while also being a single mom who needed control of her calendar. When she saw major flaws in the way lawyers, like herself, were taught to serve families and small business owners, she decided to do something about it. Ali developed a new way to practice law-one that puts relationships before transactions. And while that made her happy, the icing on the cake was that she started generating over \$1 million annually in just three years, all while going to her office just three days a week. Now, Ali brings this knowledge and experience to bear in The New Law Business Model. If you're a lawyer, there's no need to abandon your dreams. In this book, Ali shows how to use your most valuable asset-your law degree-for the good of families, small businesses, and most importantly, your well-being. Pulling from her own journey, Ali shares the roadmap she followed and insights she found that made her success possible. The old law business model is broken. It's time to replace it with one that works for you, your family, and your clients. It's time to take back your time, your income, and your humanity. The New Law Business Model was created to guide inspired lawyers like you into a new era. In this engaging treatment of the Gospel of Mark, Dawn Ottoni Wilhelm combines biblical scholarship with a close reading of the Gospel text to meet the needs of preachers today. Swift and purposeful, the Gospel of Mark proclaims God's reign and urges the participation of all God's people in the witness of the good news that God has transformed human reality through Jesus Christ. This insightful commentary helps that message come alive while providing pertinent suggestions about how preachers can proclaim this message to today's churchgoers.
