Aristotle on Desire Aug 19 2022 Desire is a central concept in Aristotle's ethical and psychological works, but he does not provide us with a systematic treatment of the notion itself. This book reconstructs the account of desire latent in his various scattered remarks on the subject and analyses its role in his moral psychology. Topics include: the range of states that Aristotle counts as desires (*orexeis*); objects of desire (*orekta*) and the relation between desires and envisaging prospects; desire and the good; Aristotle's three species of desire: *epithumia* (pleasure-based desire), *thumos* (retaliatory desire) and *boulêsis* (good-based desire - in a narrower notion of 'good' than that which connects desire more generally to the good); Aristotle's division of desires into rational and non-rational; Aristotle and some current views on desire; and the role of desire in Aristotle's moral psychology. The book will be of relevance to anyone interested in Aristotle's ethics or psychology.

Three Faces of Desire Jul 18 2022 To desire something is a condition familiar to everyone. It is uncontroversial that desiring has something to do with motivation, something to do with pleasure, and something to do with reward. Call these "the three faces of desire." The standard philosophical theory at present holds that the motivational face of desire presents its unique essence--to desire a state of affairs is to be disposed to act so as to bring it about. A familiar but less standard account holds the hedonic face of desire to reveal to true nature of desire. In this view, to desire something is to tend to pleasure if it seems that the desired state of affairs has been achieved, or displeasure if it seems otherwise, thus tying desire to feelings instead of actions. In *Three Faces of Desire*, Schroeder goes beyond actions and feelings to advance a novel and controversial theory of desire that puts the focus on desire's neglected face, reward. Informed by contemporary science as much as by the philosophical tradition, *Three Faces of Desire* discusses recent scientific discoveries that tell us much about the way that actions and feelings are produced in the brain. In particular, recent experiments reveal that a distinctive system is responsible for promoting action, on the one hand, and causing feelings of pleasure and displeasure, on the other. This system, the brain's reward system, is the causal origin of both action and feeling, and is the key to understanding the nature of desire.

The Bride of Judah Oct 17 2019 On this Christian journey, we must be driven by God and his desire for our lives. To successfully drive and fulfill your purpose, you must have a personal relationship with God, driven to die to self and allow Gods glory to radiate in your life and to continue after you are gone. Your legacy will remain. Continue to abide in truth, and let the Word of God work in you, through you, and for you. No one can drive you unless you are willing to let them take over the reins of your life. Allow Jesus to take over the reins of your life so that you can successfully complete the mission that you were sent here in the earth to do to stand on the promises of God even in the midst of opposition, affliction, betrayal, lies, and deceit.

On Desire Nov 22 2022 A married person falls deeply in love with someone else. A man of average income feels he cannot be truly happy unless he owns an expensive luxury car. A dieter has an irresistible craving for ice cream. Desires often come to us unbidden and unwanted, and they can have a dramatic impact, sometimes changing the course of our lives. In *On Desire*, William B. Irvine takes us on a wide-ranging tour of our impulses, wants, and needs, showing us where these feelings come from and how we can try to rein them in. Spicing his account with engaging observations by writers like Seneca, Tolstoy, and Freud, Irvine considers the teachings of Buddhists, Hindus, the Amish, Shakers, and Catholic saints, as well as those of ancient Greek and Roman and modern European philosophers. Irvine also looks at what modern science can tell us about desire--such as what happens in the brain when we desire something and how animals evolved particular desires--and he advances a new theory about how desire itself evolved. Irvine also suggests that at the same time that we gained the ability to desire, we were "programmed" to find some things more desirable than others. Irvine concludes that the best way to attain lasting happiness is not to change the world around us or our place in it, but to change ourselves. If we can convince ourselves to want what we already have, we can dramatically enhance our happiness. Brimming with wisdom and practical advice, *On Desire* offers a thoughtful approach to controlling unwanted passions and attaining a more meaningful life.

Dealing in Desire Dec 31 2020 This captivating ethnography explores Vietnam's sex industry as the country ascends the global and regional stage. Over the course of five years, author Kimberly Kay Hoang worked at four exclusive Saigon hostess bars catering to diverse clientele: wealthy local Vietnamese and Asian businessmen, Viet Kieus (ethnic Vietnamese living abroad), Western businessmen, and Western budget-

tourists. Dealing in Desire takes an in-depth and often personal look at both the sex workers and their clients to show how Vietnamese high finance and benevolent giving are connected to the intimate spheres of the informal economy. For the domestic super-elite who use the levers of political power to channel foreign capital into real estate and manufacturing projects, conspicuous consumption is a means of projecting an image of Asian ascendancy to potential investors. For Viet Kieus and Westerners who bring remittances into the local economy, personal relationships with local sex workers reinforce their ideas of Asia's rise and Western decline, while simultaneously bolstering their diminished masculinity. Dealing in Desire illuminates Ho Chi Minh City's sex industry as not just a microcosm of the global economy, but a critical space where dreams and deals are traded.

The Philosophy of Desire in the Buddhist Pali Canon May 04 2021 David Webster explores the notion of desire as found in the Buddhist Pali Canon. Beginning by addressing the idea of a 'paradox of desire', whereby we must desire to end desire, the varieties of desire that are articulated in the Pali texts are examined. A range of views of desire, as found in Western thought, are presented as well as Hindu and Jain approaches. An exploration of the concept of ditthi (view or opinion) is also provided, exploring the way in which 'holding views' can be seen as analogous to the process of desiring. Other subjects investigated include the mind-body relationship, the range of Pali terms for desire, and desire's positive spiritual value. A comparative exploration of the various approaches completes the work.

The Meaning of Money Feb 01 2021 Summary: Our parents desire us, society desires us. We exist because we were desired since at least society desires us even if our parents conceived us by accident. We are

randomly fabricated. Society desires our talents. But we are for nothing with our talents, as with our faults, which were manufactured without our agreement, since we were put before the fait accompli of existence. We did not fabricate ourselves, and if that were possible we would all be gods or at least superhumans. Money represents the desire others have for our work. The more our work is desired, the more we are likely to be able to accumulate money and therefore to live comfortably and well. But since it was others who fabricated us, why didn't they make us perfect? Answer: because they don't know how to do it. They don't even know how to educate perfectly. So after desiring us, they desire our work, our talents, and they pay us based on what we are able to achieve for them. Why do we have to suffer the double penalty of having been badly manufactured and having to live badly because of our lack of talents for which others, parents and accomplice society, are responsible?

Desire Sep 08 2021 Does action always arise out of desire? G.F.

Schueler examines this hotly debated topic in philosophy of action and moral philosophy, arguing that once two senses of "desire" are distinguished -- roughly, genuine desires and pro attitudes -- apparently plausible explanations of action in terms of the agent's desires can be seen to be mistaken. *Desire* probes a fundamental issue in philosophy of mind, the nature of desires and how, if at all, they motivate and justify our actions. At least since Hume argued that reason "is and of right ought to be the slave of the passions," many philosophers have held that desires play an essential role both in practical reason and in the explanation of intentional action. G.F. Schueler looks at contemporary accounts of both roles in various belief-desire models of reasons and explanation and argues that the usual belief-desire accounts need to be replaced. Schueler contends that the plausibility of the standard belief-desire accounts rests largely on a failure to distinguish "desires proper," like a craving for sushi, from so-called "pro attitudes," which may take the form of beliefs and other cognitive states as well as desires proper. Schueler's "deliberative model" of practical reasoning suggests a different view of the place of desire in practical reason and the explanation of action. He holds that we can arrive at an intention to act by weighing the relevant considerations and that these may not include desires proper at all. A Bradford Book

Unmastered Jun 05 2021 *Unmastered* is a new kind of book that allows us to think afresh about desire. Incisive, moving, and lyrical, it opens up a larger space for the exploration of feelings that can be difficult to express. Touching on experiences of desire and pleasure, as well as grief and pain, the book probes the porousness between masculine and feminine, thought and sensation, self and culture, power and pliancy. Katherine Angel reflects on the history of her own feelings, on her encounters and beliefs, and shows how our lives can be shaped by sexuality and feminism; by the words we use, and the stories we tell. The result is a book letting light into places that are often dark and constrained - a searching, erotic work that shifts in meaning and resonance even as it is read.

Forbidden Brides of the Faceless Slaves in the Secret House of the Night of Dread Desire Mar 14 2022 A celebrated send-up of gothic literature, beautifully adapted into a dark, brooding, and oddly comical graphic novel. Somewhere in the night, a raven caws, an author's pen scratches, and thunder claps. The author wants to write fiction: stories about frail women in white nightgowns, mysterious bumps in the night, and the undead rising to collect old debts. But he keeps getting interrupted by the everyday annoyances of talking ravens, duels to the death, and his sinister butler. Shane Oakley beautifully illustrates New York Times bestselling author Neil Gaiman's satirical tale.

The Evolution of Desire Dec 11 2021 A "drop-dead shocker" (Washington Post Book World) that uses evolutionary psychology to explain human mating and the mysteries of love If we all want love, why is there so much conflict in our most cherished relationships? To answer

this question, we must look into our evolutionary past, argues prominent psychologist David M. Buss. Based on one of the largest studies of human mating ever undertaken, encompassing more than 10,000 people of all ages from thirty-seven cultures worldwide, *The Evolution of Desire* is the first work to present a unified theory of human mating behavior. Drawing on a wide range of examples of mating behavior — from lovebugs to elephant seals, from the Yanomamö tribe of Venezuela to online dating apps — Buss reveals what women want, what men want, and why their desires radically differ. Love has a central place in human sexual psychology, but conflict, competition, and manipulation also pervade human mating — something we must confront in order to control our own mating destiny. Updated to reflect the very latest scientific research on human mating, this definitive edition of this classic work of evolutionary psychology explains the powerful forces that shape our most intimate desires.

The Botany of Desire Dec 23 2022 "Pollan shines a light on our own nature as well as on our implication in the natural world." —The New York Times "A wry, informed pastoral." —The New Yorker The book that helped make Michael Pollan, the New York Times bestselling author of *How to Change Your Mind*, *Cooked* and *The Omnivore's Dilemma*, one of the most trusted food experts in America Every schoolchild learns about the mutually beneficial dance of honeybees and flowers: The bee collects nectar and pollen to make honey and, in the process, spreads the flowers' genes far and wide. In *The Botany of Desire*, Michael Pollan ingeniously demonstrates how people and domesticated plants have formed a similarly reciprocal relationship. He masterfully links four fundamental human desires—sweetness, beauty, intoxication, and control—with the plants that satisfy them: the apple, the tulip, marijuana, and the potato. In telling the stories of four familiar species, Pollan illustrates how the plants have evolved to satisfy humankind's most basic yearnings. And just as we've benefited from these plants, we have also done well by them. So who is really domesticating whom?

Working Out Desire Oct 29 2020 Working Out Desire examines spor meraki as an object of desire shared by a broad and diverse group of Istanbulite women. Sehlikoglu follows the latest anthropological scholarship that defines desire beyond the moment it is felt, experienced, or even yearned for, and as something that is formed through a series of social and historical makings. She traces Istanbulite women's ever-increasing interest in exercise not merely to an interest in sport, but also to an interest in establishing a new self—one that attempts to escape from conventional feminine duties—and an investment in forming a more agentive, desiring, self. Working Out Desire develops a multilayered analysis of how women use spor meraki to take themselves out of the domestic zone physically, emotionally, and also imaginatively. Sehlikoglu pushes back against the conventional boundaries of scholarly interest in Muslim women as pious subjects. Instead, it places women's desiring subjectivity at its center and traces women's agentive aspirations in the way they bend the norms which are embedded in the multiple patriarchal ideologies (i.e. nationalism, religion, aesthetics) which operate on their selves. Working out Desire presents the ways in which women's changing habits, leisure, and self-formation in the Muslim world and the Middle East are connected to their agentive capacities to shift and transform

their conditions and socio-cultural capabilities.

The Desire of Ages ... Jun 24 2020

Capitalism and Desire Jul 06 2021 Despite creating vast inequalities and propping up reactionary world regimes, capitalism has many passionate defenders—but not because of what it withholds from some and gives to others. Capitalism dominates, Todd McGowan argues, because it mimics the structure of our desire while hiding the trauma that the system inflicts upon it. People from all backgrounds enjoy what capitalism provides, but at the same time are told more and better is yet to come. Capitalism traps us through an incomplete satisfaction that compels us after the new, the better, and the more. Capitalism's parasitic relationship to our desires gives it the illusion of corresponding to our natural impulses, which is how capitalism's defenders characterize it. By understanding this psychic strategy, McGowan hopes to divest us of our addiction to capitalist enrichment and help us rediscover enjoyment as we actually experienced it. By locating it in the present, McGowan frees us from our attachment to a better future and the belief that capitalism is an essential outgrowth of human nature. From this perspective, our economic, social, and political worlds open up to real political change. Eloquent and enlivened by examples from film, television, consumer culture, and everyday life, *Capitalism and Desire* brings a new, psychoanalytically grounded approach to political and social theory.
